## Flewin Field Is Named

Air field at Shilo, Manitoba Canadian Forces Base, has been named Flewin Field. The name of the airport commemorates Capt. J. R. Flewin, of the Royal Regiment of Canadian Artillery.

On Friday, June 5, a formal ceremony was observed at Shilo to open and name the field.

Capt. Flewin lost his life in a crash when he was a night reconnaissance flight in Ontario in January, 1964. He was at that time a member of the military intelligence staff in Ottawa.

Capt. Flewin was a familiar visitor to Salt Spring Island during the 10 years period, 1954 to 1964. His parents, Mr. and Mrs. W. R. Flewin have lived for many years at Vesuvius.

## To Teach

Rose Murakami will teach nursing next year at the University of British Columbia.

Miss Murakami has taken her master's degree in science at McGill University. She is joining the faculty of nursing at UBC and will commence in the fall.

A brilliant student, Miss Murakami has gained a number of scholarships during her studies. She is the daughter of Mr. and Mrs. A. K. Murakami, of Rainbow Road.

## FIRE DESTROYS STORE

—EARLY MORNING BLAZE AT GALIANO

Early morning fire on Wednesday last week destroyed a Galiano Island business block and left islanders with no large grocery or produce outlet.

Equally hard hit was the island's only hardware store.

Alarm was sounded by Mrs. Madge Murphy of Galiano Lodge who saw the flames. She was on her way to the sitting room to escape the heat wave.

Firemen and residents jumped to the fire alarm, but when they reached the fire at 4 am, it was already too late to save the building. The upper floor, housing Galiano Store, was blazing fiercely. Firemen were even then hopeful of saving the basement until the lower floor exploded into flame almost as they arrived.

The crew concentrated on saving the surrounding property from damage, damping down the brush and trees which were scorched from the intense heat. By 6 am the building had been demolished.

Firemen later averred that the community had been saved from disaster by the lack of wind. Had the night been stormy there would have been no way of preventing the flames from spreading, DRIFTWOOD was told.

It was a night of co-operation and eager assistance. Almost every able-bodied man on Galiano was there to help.

Ken Silvey and Jack Hawthorne rolled out the dozen or so large propane cylinders standing alongside the blazing building. They rolled the cylinders well clear of the fire. The hot gas tanks were sizzling during the quick safety operation.

Bursting cans and inflammable liquids stored in the hardware store added to the spectacular blaze. It was reported that debris from the fire was found on Wednesday as far away as Galiano Golf Course.

## DRIEST MAY

Island gardens needed watering last month. It was the driest May since 1964 according to the figures furnished by Dominion Weather Observer H. J. Carlin.

Rain last month amounted to 0.82 ins. In May, 1964, the figure was 0.58 ins.

High temperature of the month 72 deg. on the 31st and a low of 36 deg. was recorded on the 11th.

Maximum mean temperature was 60.1 and minimum mean, 43.6.

Following figures show comparison with previous years:

May of	High	Low	Rain
1969	82	39	1.09
1968	76	37	1.36
1967	68	38	1.40

Truck and driver escaped serious hurt when the oil truck shown above rolled over on Bed-

dis Road.

Driver reported that the road fell away beneath his wheels as he pulled over near the ditch while negotiating a curve in the road.

Art Topping was driving the truck at the time. It was carrying diesel fuel and although fire hazard was low, the Salt Spring Island Volunteer Fire Department attended with two trucks to wash down the roads and to be prepared if there should be a fire. Under the direction of Alex McManus the heavy vehicle was rolled back on the road and righted.

## IT'S DANGEROUS

SPEC committee on Salt Spring Island has been calling for a collection of dangerous pesticides and insecticides for several months.

The collection is looming closer and Pharmacist Les Ramsey has undertaken to direct the drive.

In a preliminary announcement Mr. Ramsey lists the specific chemicals which are dangerous to life and health. He also notes a number of the reasons for discontinuing their use.

A later announcement will advise Salt Spring Island residents where to leave such sprays and chemicals as well as information on the date of a collection campaign from home to home.

By Les Ramsey

What's in a name?

For the most part gardeners call them weed killers, but in South East Asia they are known as defoliants, where mile after mile of forest, rice field and orchard have been killed and the total environment upset for at least 10 years to come.

Women are giving birth to malformed children and a terrible picture is unfolding.

Right now, in your basement, in your tool shed or on your back porch shelves may be the same chemicals which are causing the ecological destruction of South Viet Nam. These pesticides are dangerous...

...This is what we want you to do.

If you have any preparation containing ingredients listed be-

low, or if you have any pesticides, two years old or older, put them in a plastic bag and seal it.

Then, either bring it to our collection depot or set it safely aside and out of reach of children and we will arrange to pick it up at a later date.

The harmful chemicals, according to Department of Agriculture recommendations for 1970, include: aldrin, dieldrin, D.D.T., chlordane, heptachlor, lindane, toxaphene, arsenic compounds, calcium tri-oxide, mercury compounds, and 2-4-5-T.

At the conclusion of the collection drive these dangerous chemicals will be taken to an agricultural depot at Cloverdale to be sent away for storage or destruction.

## SCHOOL BUILDING PLAN

Completely new approach to school building has been proposed by school trustees of the province.

A province-wide school building system, to provide quality buildings with the flexibility to handle changes in education programs is advocated by the B. C. School Trustees Association.

James Campbell, of Saturna Island, president of the BCSTA, stated that the plan would overhaul the school building industry in the province.

"We have been building

schools as though every building was the first school ever to be built" Campbell said.

The school construction systems committee was set up by the B. C. School Trustees Association at the invitation of the minister of education, who provided a grant to assist with the cost of the project. For some time the BCSTA has been interested in building systems and the association sponsored a study of the feasibility of systems building for schools in B. C., which was undertaken by Robin Clarke, Associate Professor of Architecture at UBC.

## LION'S BIGGEST PROJECT

### Leo Club Is Chartered

Best thing to come from the Lions is the Leo Club.

On Saturday evening W. Hart Bradley, past Lions Zone Chairman and past president of the island club, told the Leos charter night guests that the Lions have undertaken many projects

in the community but none more important than this contribution to youth.

There were about 90 at dinner in the United Church Hall with guests from Washington State and Vancouver Island.

Mr. Bradley presented the charter of the new Leo Club to its first president, Dave Williams. He recalled having taken part in the presentation of its charter to the Salt Spring Lions Club 11 years ago.

"I hope this charter brings you as much success as it did to the Lions Club after I received it 11 years ago," he told Dave.

Mr. Bradley also presented each member with his Leos lapel badge. Ray Sheward, past cabinet chairman of the club and a regular visitor to the Island Lions, was the guest speaker.

Following the successful dinner and ceremony, a dance was staged to the music of the Rain Forest.

(Turn to Page Sixteen)

## CAMPAIGN FOR FUNDS

Concert in the Centennial Park on Saturday by school players from Burnaby brought many comments from week end shoppers in Ganges. The value of the park was illustrated in a practical manner, suggests a spokesman for the park committee. Canvass of the island is planned to sell memberships in the park society in order to raise funds for the maintenance of the area. It is the only means of raising the money needed for maintenance, says Adrian Wolfe-Milner.

## KINSMEN FROLIC

It was Kinsmen Day at Quebec Drive over the week end.

Members of the Kinsmen Club and K-40 Club of Ladner came to Salt Spring Island to swim, paddle, fish and sail while making their headquarters at the home of Mr. and Mrs. Bill Mosier.

By Monday the Kinsmen Frolic was over and the Kinsmen were back in Ladner.

## CARS COLLIDE

Damage amounting to several hundred dollars resulted from a collision in the early hours of Saturday morning at Fernwood.

Cars driven by Sidney McColl and Jesse Byron were involved and Byron was taken to Lady Minto hospital by Lions Ambulance. He was subsequently released.

ROTARY BOYS' CHOIR IN MAHON HALL

Rotary Boys Choir was brought to Salt Spring Island on Saturday by Salt Spring Island Rotary Club. Choir entertained pensioners in

Mahon Hall during the afternoon. Boys were accompanied by three adults, Bill Hastings, Mrs. McVie, accompanist and Frank Shandley, manager. Door prize offered by Harbour Grocery, was won by Mrs. John Dyer. Lunch was served for the Old Age Pensioners Organization at Ganges Crest.

**WEDDING AT PORT ALBERNI**

All Saints' Church, Port Alberni, was the scene of the ceremony uniting Margaret Anita McVie and Robert Alexander Reid, on May 9 with Rev. J. A. Daniels officiating.

The bride is the eldest daughter of Mr. and Mrs. Robert McVie, Port Alberni, and the groom is the son of Mr. and Mrs. J. D. Reid, Salt Spring Island.

coat and white carnation corsage.

J. Robertson of Nanaimo was master of ceremonies and Sonny Logan of Bamfield gave the toast to the bride. The bride and groom cut the wedding cake with a bayonet which had been handed down from generation to generation in the bride's family.

For a honeymoon trip of British Columbia and Alberta, the bride wore a peach coat and dress with white accessories and white rose corsage. On their return, the newlyweds will reside in Victoria.

The majority of guests were from out-of-town -- these included guests from Bamfield, Salt Spring Island, Vancouver, Nanaimo, Duncan, Victoria and Ottawa.

Island guests included David Weatherall, Miss Sheila Miller, Mr. and Mrs. Guy Cunningham, Mr. and Mrs. Ron Cunningham, Miss Lillian Cunningham, Brian Cunningham, Miss Marilynne Bridgen and Mrs. Robert Taylor.

**Ganges**

Mr. and Mrs. Keith Llewelyn, Merriwa, New South Wales, Australia arrived Sunday, June 7 to stay for several months with Mrs. Llewelyn's brother Walter Mailey, Welbury Point. The Llewelyn's who have a sheep station in New South Wales will manage Welbury Point Resort during the time Mr. Mailey is a patient in the Veteran's Hospital in Victoria.

Mrs. Hazel Knox and Mrs. Alice Hammett returned to the Island from a three-and-a-half-months' world cruise on the S.S. Arcadia. Interesting ports of call were Fiji, Australia, New Zealand, South Africa, Lisbon, Madeira, Bermuda and the West Indies. They spent several weeks in England, and Scotland visiting friends and relations.

Mrs. O. L. Stanton arrived home Sunday after a five week holiday staying with her son-in-law and daughter Mr. and Mrs. Peter Stanford, London, England. She also paid a short visit to Ireland enjoying the beautiful country and good weather.

Mr. and Mrs. G.E. Clayton, Scott Point Drive are home again after a five-week holiday in Europe.

Visiting Mr. and Mrs. K. Butterfield, Ganges Hill, last week end were their daughter, Ann and also Miss Ruth Taylor, both from Vancouver.

Over from North Vancouver last week end to visit their parents, Mr. and Mrs. P. D. Humphreys, Crofton Road, were Mr. and Mrs. David Humphreys with small daughter Cindy and Mr. and Mrs. Rick Weeks.

The bride, wearing a full length A-line style gown, was given in marriage by her father. The "champagne" colored gown featured a lace panel down the front, lily-point sleeves, and an inverted pleat flaring into a train at the back. She wore a bouffant veil centred with lily of the valley, and carried a bouquet of dark red carnations with lily of the valley and a white rose corsage centred in the middle.

The bride was attended by her sister, Mary Bridgen, matron of honor, Kathleen Horn, bridesmatron and a younger sister, Susan, bridesmaid. The two senior attendants were gowned alike in floor length dresses of peach brocade and they carried posies of narcissi and white carnations. Susan wore a peach satin dress with matching bows in her hair and carried a posy of narcissi and carnations.

The groom's friend, Robert Taylor, was the best man and ushers were Alan Cunningham and the bride's brother, Robert McVie, Jr.

The reception was held at Hansen Hall, Port Alberni, which was decorated with a double-ring theme. Silver candlesticks flanked the wedding cake, made and decorated by the best man.

The bride's mother wore a pastel blue sheath with matching coat; white accessories and white carnation corsage. The mother of the groom wore a cerise knitted suit, beige top-

**ART  
SHOW**  
— AT MAPLE BAY

A date to remember for the Salt Spring Island Art Group: the annual summer art show by the Maple Bay Painters will be held Saturday and Sunday, June 13 and 14 from 2 to 10 p. m. at the Maple Bay Recreational Centre, formerly the yacht club.

Recent painting of the group will be displayed along with pottery, sculpture and plaques of the Cowichan Valley Potters.

Maia Ritchell, a well-known portrait painter of Victoria will be present to do quick pastel portraits.

## AMBULANCE AND THE ISLANDS

It has been mooted that an emergency helicopter ambulance service be initiated for the islands. The service would offer a flying ambulance in case of emergency and a government grant of \$3 per capita would be payable by the provincial government to the operators.

Every modern service bringing the sick and injured more rapidly to hospital is to be welcomed.

As far as Salt Spring Island is concerned, it would be a paradoxical action by a government department to allocate a grant for an air ambulance, while ignoring a ground ambulance already in operation.

We can all visualize the time when an emergency helicopter ambulance might be invaluable. On Salt Spring Island we have seen the occasion, time and again, when an emergency ambulance was needed and available.

While, we are aware that the allocation of grants for this purpose outside a municipality has not been the policy of the government, we feel very warmly that if the government changes its mind, then the Salt Spring Island Lions Emergency Ambulance Society should be given first consideration.

Statistics reveal no recent instance where a life was lost through delay in transportation to Lady Minto, or any other hospital. The Lions ambulance has contributed to this fine record.

## FESTIVAL OF SPORT

Bowling team from Salt Spring Island took the Vancouver Island championship and fell out in the provincial contests staged recently at Vernon.

The Valcourt Pro-Hardware team was the only island entry in the British Columbia Festival of Sports.

The islands could have done a lot better.

There are roller hockey teams fighting for supremacy throughout the season. Yet, there was no suggestion of inviting outside teams to compete within the scope of the Festival of Sports.

The Islands are characterized by vast tracts of wild country and sea. Yet, there was no thought given to the staging of automotive or boating sports here.

Salt Spring Island youngsters play soccer throughout the season. But there was no outside concern.

The B.C. Festival of Sports is among the happiest projects entertained by the province. It encourages a wide interest in and a concern for sport and it fosters an exchange of visits among provincial communities.

The islands communities have been aware of the festival for more than a year. Apart from bowling, nothing has been accomplished.

Next year the program will be repeated. The festival is a continuous project. It will be a more impressive reflection of island sport if the 1971 festival attracts representative of various sports from the islands. As

## LETTERS TO THE EDITOR

### THERE IS A LAW

Editor, Driftwood,  
A "Letter to the Editor" in a recent Driftwood objected to dumping stumps, branches, etc. into the sea.

The following extract from "Fisheries Act RSC 1952 amended 1960-61" has some bearing on this:

"33 (3) No person engaged in logging, lumbering, land clearing or other operations, shall put, or knowingly permit to be put, any slash, stumps or other debris into any water frequented by fish or that flows into such water, or on the ice over either such water or at a place from which it is likely to be carried into either such water. 1932, C42S33.

### SALTY WHEELS SHOW THEIR PACES AT GANGES ON SATURDAY

BY MARY SYLVANDER

Last Saturday was a gala occasion for square dancers on the Island. The new club, "Salty Wheels" displayed its gay new banner. As this was the last dance of the "Wagon Wheels", the occasion was celebrated by the serving of a delicious supper of assorted salads, meats and pies.

The refreshment committee, consisting of Eleanor Hatch, Madeline Barber and Nan Ruckle assisted by other members, did a grand job of providing such tasty refreshments.

The President elect of the new club, Cliff Hatch, then presented our caller, Bert Barber, with a gift of money and extended the gratitude of the old club "Wagon Wheels" for the wonderful job he has done of calling for us; and expressed anticipation of dancing as a combined group "Salty Wheels" to his calling when the season opens next fall, on September 12.

(5) Every person who violates any provision of this section is guilty of an offence and is liable on summary conviction.

(a) For the first offence, to a fine of not less than one hundred dollars and not more than one thousand dollars or to imprisonment for a term of not less than one month and not more than six months, or to both such fine and imprisonment and

(b) for a second and each subsequent offence, etc."

-P. R. Layard,  
R. R. 1, Ganges.  
June 8, 1970.

Twelve church bells arrived at New Westminster from England, June 6, 1865, destined for steeples of Indian churches in the Fraser River area. The "British Columbian" said, "This looks like advancing civilization among the Indian tribes.

### SCHOOL BAND FROM MAINLAND AT GANGES

School band from Cosmo Lake near Burnaby came to Salt Spring Island last week end to offer two concerts in the school. During Friday afternoon they played for Ganges element-

ary school. The same evening they played a concert in the high school gymnasium. On Saturday afternoon they offered an impromptu concert in the Centennial Park at Ganges.

## SOUTH PENDER

BY CULTUS COULEE

Benny Louis, on South Pender relishing a family reunion. Daughter Linden, with Tamara, seven months, out from Montreal to her father in Victoria, her first visit since the baby was born. With her, husband Colin Russel, a student at McGill, MBA And Colin Russel Sr., from Montreal, to Victoria. Benny, a gloating, doting, grandpa; all nods and becks and wreathed smiles...

Monday Sketchers, met in and around the Bill Brown orchard on the slope above Port Wash. It was Albertine Haslam's bright idea. The Browns have sold, and move to Victoria in July; and what may happen to the old place - quien sabe?

Sunny Side Ranch was built for Washington Grimmer by carpenter Pope and Parson McKay in 1891. In 1902 the Spencer Percivals, an English couple from Baldur, Manitoba, bought 160 acres from Mr. Grimmer, with house.

To the small Grimmer orchard, Percival added 4 or 5 acres mainly Kings and Greenings.

A lot has been added to the house. Percival built an east gable, matching Pope's gable on the west. The Browns, who came from Calgary in April 1939, buying from Percival, put on a top storey.

Sketchers, scorching in cars, Daphne Stevens and Marjorie Teece Murray; perched in a ditch, Ora Symes; and scratching in the long orchard grass, Bertine Haslam, Clarice Renaud and Connie Swartz.

May Gray revived the parched painters with tea, at her house on Port Washington Hill. It is at the house of the Matthew F. Grays, Bridge Road, that a meeting will be held Monday 22, to plan the art show for July 25.

Frank and Viva Freeman Flood from Robson, with Don and Stephen, for the week end to see Mrs. John Freeman, at Pencilwood.

Canadian poet, Phyllis Webb, at Clakilli. She is on a Senior Canada Council Grant; her third grant. Living in West Vancouver for the past year, she is now looking for a place to spend the summer; and such winter as we have; if it is cheap enough!

Henri and Clarice Renaud,  
(Turn to Page Twelve)

**YOUR SCHOOL BOARD**

**QUESTION CORNER**

**DID YOU KNOW....**

That in the thirties, high school students of that time were taught in what was called "The Chicken House"? This was a building that was part of the stock buildings owned by the Farmers' Institute and used for exhibitions, and the chicken house was placed on part of the grounds for use as a high school. (After suitable re-modelling - we hope!!!)

**DID YOU KNOW...**

That the Mahon Hall will be 70 years old in 1971? (This question is for newcomers to the Island -- like those who have been here for only twenty-five years.)

**DID YOU KNOW...**

That as compared with one single location at Ganges at the present time for all Salt Spring Schools, there have been schools in the past at eight or nine different locations on the Island. Information and dates concerning these schools will be gladly received, and further items published. (Published as a community service.)

**THEY WANT TO COME BACK TO SALT SPRING**

Mr. and Mrs. Urda are reluctant Californians. They have been spending a holiday on Salt Spring Island before returning home to the industrial United States. Once they lived in Sidney and Mr. Urda was employed at Patricia Bay Airport, but the aviation industry in British Columbia has not held its promise and employment opportunities are thin. Mrs. Urda is no newcomer to the island. As Margaret Mason, she grew up at Vesuvius. Her parents were Mr. and Mrs. Job Mason and they all lived here until she was in her teens. Mrs. Urda was reminiscing about her home at Vesuvius and the older buildings of the community. They want to come

back, but the aviation industry on Salt Spring Island is not a prosperous source of wealth.

**YOU ONLY NEED ASK**

All you have to do is ask. Purpose of the question and answer column on this page is to enable readers to learn the answers to their own questions. Chairman of the information committee of the Gulf Islands School District Harold Hoffman has urged readers to ask their own questions. They may write them down or phone them or call in person. The question and the answer will be published. Any reader who feels critical of the island school pattern is invited to ask questions about any phase of the operation here.

**50th ANNIVERSARY**

Maurice Raymond Littler and his wife, Beverley, will hold open house at 1227-27th Avenue East, Vancouver, on June 13 between the hours of 2 and 8 in honor of the 50th wedding anniversary of Mr. Littler's parents.

Mr. and Mrs. Maurice Richard Littler were married in the Mount Pleasant Methodist Church, Vancouver, on June 16, 1920. They resided at Beaconfield Station following their marriage before moving to Long Beach, California. Upon their return to Canada, they lived in Vancouver, then farmed for ten years during the depression of the thirties at Roberts Creek, B.C.

In 1942 they moved back to Vancouver, where Mr. Littler worked as an electrician for the Department of National Defence at Jericho Beach. There, they educated their four sons and four daughters.

After the children were grown Mr. and Mrs. Littler retired to

Little Bay, Saturna Island, and built a home overlooking the western seas. There, they watch the beautiful ever-chan-

ging sunsets over the Gulf Islands, an artist's paradise, they explain.

They have 28 grandchildren and five great-grandchildren.

Mrs. Littler's grandparents, Isaac and Mary Walsh arrived in the pioneer port of Victoria in the early 1870's, sailing from England around the Horn on the Bellflower, a journey which took them six months to complete.

Maurice Richard Littler came to Victoria from Widnes, Lancashire, England in 1912. He served overseas during the First World War with the First Canadian Siege Battery as a signaller. After armistice he was stationed with the occupation forces in Bonn with the 2nd Canadian Heavy Bty.

Mr. Littler has two boats and likes to fish, while Mrs. Littler is an avid reader. They both enjoy working in their lovely terraced garden.

## MAYNE

BY ELSIE BROWN

Two important events coming up this month are the Flower Show and Fun Walkathon, which will be held on the following dates:

Saturday, June 20, Flower Show at the hall, 1:30 p.m. admission charge is 50¢. In charge of arrangements is Mrs. Marjorie Haggart, phone 539-2283. Judging will be by Mrs. E. C. Darts of White Rock. Refreshments will be served.

Saturday, June 27, Fun Walkathon, sponsored by Mayne Island Agricultural Society. Starting point will be the Agricultural Hall. Time: 11:30 a.m. Distance 10 miles. For information contact Gordon Ducklow at Mayne Inn or Mrs. Grace Evans, phone 539-2392. Anyone needing pledges may obtain them from Fred Hansen, phone 539-2215. A prize will be given for runners or joggers coming in first.

\* \* \*

It is "Operation Move" for Miners Bay Store owners, Dick and Sallie Pugh during the next few days. The previous quarters are now vacated and demolition has begun to provide entrance and parking area for the shiny new store which will be open for business Wednesday, June 10, 9 a.m. - 9 p.m. Grand opening is slated for Saturday, June 20. There will be many specials and a wide variety of food items as well as hardware. A draw for a Swiss ham will also be made.

For the benefit of Galiano residents without the Galiano store groceries may be ordered by phone on Thursday or sooner and delivered Friday via Bob Sauerberg's Water Taxi to Sturdies Bay.

\* \* \*

After the fire . . . scene of destruction at Galiano after last Wednesday's fire destroyed Galiano Store and Burton and Matthias Hardware.

Visiting the Dyke family at the home of their grandparents, Mr. and Mrs. Al Brau, Georgina Shoals was Kim Froelich of Richmond. Karen, Susan and Stephen were members of the entertainment committee assisted by cousin, Gordon.

Mrs. Cece (Doris) Gardner of Coquitlam has been over to her summer home at Bennett Bay for several days. With Doris is her mother, Mrs. H. Granville who is an avid gardener and spends a great deal of time in the great outdoors both on the island and in Coquitlam.

Visiting the Bill Morsons, Cherry Tree Bay, are their granddaughter Sandra Morris and her friend Lynn MacCauley of Comox. They have been enjoying the lovely warm days down at the beach and visiting around the island.

\* \* \*

The Len Caples with daughter Rachel, have returned from a five-week stay in England, where they visited Gillian's parents Mr. and Mrs. J. Hill in London. Relatives in other parts of England were visited before returning home. Fields were as green as on Mayne Island and they still look like a patchwork quilt by plane, so the travellers report. Welcome back to the island!

Leaving for England shortly are Alan and Freda Filtness, who plan to attend their daughter Sandra's graduation at Booth Hall Hospital, Manchester. She will receive her SRN and SRCN which terminates four years of study specializing in Pediatrics. San- (Turn to Page Seven)

(From Page Six)

dra will be touring the continent with her parents. They will visit the Isle of Capri, Italy and Bavaria.

They plan to attend the Oberammergau Passion Play being performed this year and which has been re-enacted every ten years since 1634. Bon Voyage to Alan and Freda! Congratulations to Sandra!

Mrs. Betty Ross was hostess at a tea for Mrs. Freda Filtness at the home of Mrs. Marguerite Morson prior to her departure for England when friends gathered to wish her Bon Voyage. She was presented with a travelling case to match her luggage.

Congratulations to Fred Bennett, Jr., on his winning of the scholarship presented by the Saanich Teachers Association! Fred recently graduated from Mount Newton School and ceremonies were held at Holyrood House in Victoria.

Visiting the Fred Bennetts from Edmonton are their daughter Mrs. E.J. (Doreen) Gurski with Vivian, Alan and Beverley. They are enjoying our warm summery weather after the cool weather of Alberta.

Spending the past week working on his property and starting construction on the family summer home at Cherry Tree Bay is Wesley Blair of Trail. Wife, Betty plans to come out later in the month. Son Ken has been attending university at Cheney, Washington and a married son, Roy with his wife and family also reside at Trail. Daughter Judy is a Secondary School student and is presently Park Supervisor at Trail.

The Stu Frys have been over to visit their property at Cherry Tree Bay, looking forward to re-launching their boat after it suffered damage due to sinking during a storm last year. Painting and repairing is being done by Jack Evans assisted by son, Bill.

**PLANNING NEEDS HELP**

The Community Advisory Planning Committee has been meeting regularly to assist in the writing of an interim zoning by-law.

This by-law will provide some controls for the Island until the long-range community plan is completed about a year from now.

The Committee felt that it should report to all the people on Salt Spring who helped with the questionnaire and provided the funds for its early efforts.

Meeting collections and donations totalled \$351.98, expenses, including printing, meeting notices and postage came to \$352.12. Until a further donation of \$10.00 was received recently, the Committee was just a bit broke, reports Chairman Henry Schubart.

All services and meeting halls have been donated and the needs of the Committee are small, he noted.

Small donations are invited from interested citizens to continue the work that has been started. Cash may be left at DRIFTWOOD or checks mailed to Mr. Schubart, Old Scott Rd., Ganges.

The Capital Region District Board has contributed \$50 to assist the Committee.

**TYPEWRITER SALES & SERVICE DRIFTWOOD 537 - 2211**

The building is gone but shielded by the brick wall, the telephone box remains. Even the glass is intact. Scene is at Galiano after the fire.

Mayne Island rainfall for May was 0.74 inches. Measurable rain fell on nine days.

**PLANNING REPORT**  
**SUBDIVISION**  
**ISLAND**  
**PROBLEM**

Last year's ministerial clamp on subdivisions among the Gulf Islands caused a reverse effect. Eager to get prepared subdivisions finally approved by the deadline this spring, property owners registered and gained approval of 1,900 lots between October 28 and March 31. During the previous 11 years there had been 3,144.

The subdivision ban prohibits lots of less than 10 acres in area until an approved land use program has been prepared for each of the Gulf Islands.

The figures are taken from the final report of the Capital Region Planning Board on feasibility of planning of the islands. Report was issued last week.

Report completes a study of the need for planning among the islands as well as a recommendation of the type of planning needed.

For 100 years, says the report, the islands were by-passed by the mainstream of urban development. Today that development has caught up with the islands. Heavy urbanization of surrounding Vancouver Island and mainland centres is bringing its effect to the islands.

Subdivision without planning brought into being the municipal affairs minister's restriction of lot sizes. Tables shown in the planning report illustrate the irregularity of development, island to island and year to year.

Salt Spring Island, with its greater area and greater population has attracted the biggest development, both in numbers of subdivisions and proportion of occupied lots. On Salt Spring Island 55% of lots have been built on. Among the outer islands, 40% have now gained houses.

North Pender has the largest subdivision in terms of numbers. In 1967 there were 500 registered lots. Today the same subdivision has 1,450 lots registered or submitted for approval.

It is the largest subdivision in the islands, and in the entire capital region.

Survey brings out some interesting features about subdivisions. It is estimated that one-half of the individual purchases of lots is by residents of the Vancouver metropolitan area. These have been concentrated on North Pender and Mayne Islands. Next largest group of purchasers are islanders themselves. Despite constant references to the number of United States residents among the islands, the survey indicates that less than 10% of sales are to Americans. The proportion is higher in some islands, where only small numbers of lots have been offered for sale.

Biggest land sale volume has been on Salt Spring Island and particularly in the North Salt Spring Island area. On Galiano 48% of the island is held in one ownership and has not been developed.

Subdivision is constrained by water resources and sewage disposal, observed the report. Salt Spring Island and Pender Island both have an adequate supply of lake water, whereas Mayne Island relies on wells almost exclusively.

Small or large lot subdivisions

# PORT

by the initiation of Salt Spring Island's community planning committee and the response to questionnaires. All islanders were concerned with the quality of the environment. People overwhelmingly opposed oil drilling on or off shore.

"While the opinions of the islanders are of vital importance in developing a program of managing the islands environment, a wider public must also be considered," report the planners. "The residents of the Capital Region and the Vancouver area, and to a lesser extent those of the rest of the province also have an active interest in the future of the islands and their concerns must be kept in mind as well."

The way ahead is by means of planning to avoid the uncoordinated development which is threatening the basic charm of the islands, say the planners.

Principles and objectives for planning the islands are offered under seven points. The land and sea environments should be managed over the long term as natural resources for the benefit of the islands' residents and visitors.

The islands should be maintained as a balanced ecological system in respect of the land, sea and air domains.

Objectives of the planners are to keep pollution of the land, sea and air environments below the level at which the natural ecological system would be endangered.

To maintain the beauty of the islands;

To provide for a variety of types of dwelling for island residents;

To maximize recreational opportunities for residents of the Georgia Basin;

To co-ordinate development with the provision of an adequate standard of services;

To integrate the policies, procedures and programs of the various provincial and federal government departments which relate to the islands, with the principles and objectives of the Capital Region District as expressed in this study;

To establish a method of integrating the management of the Canadian Gulf Islands with that of the United States San Juan Islands.

In the meantime an interim zoning by-law is being prepared in co-operation with islanders.

Initially there will be six zones, rural, commercial and industrial on land and the parallel uses for the waters around the islands.

Following provision of an interim plan, the planners will consider the long-term development.

can be registered under the Land Registry Act without providing either service.

Water has been found in sufficient quantities to meet the needs of lots developed in the past, continues the report.

If subdivision continues along same pattern, a comprehensive study of the problem of water supply among the islands cannot long be postponed, it is asserted.

Sewage disposal is another problem that is destined to plague islanders. The problem will become more apparent when there are a greater number of residences, suggests the report. Up to April of this year there was no legislation controlling the operation of a private sewer system, it is noted, al-

though the legislation did cover their installation. A comprehensive study of sewage disposal is a pressing need for the islands, urge the planners, although it would follow the determination of long-term policy for the islands.

There are seven waterworks improvement districts in the islands, four on Salt Spring Island. Salt Spring also has a fire improvement district as do Mayne and Piers Islands. Mayne Island is the only island with a garbage collection improvement district. One district performs the two functions on Mayne Island. There are also 20 systems established for the distribution of water under the Public Utilities Act.

There are 88 miles of paved road and 154 miles of gravel road among the islands, one-half of this total being on Salt Spring Island.

There are public parks and other public lands among the islands, totalling approximately 5,300 acres or six per cent of the land area. Three islands enjoy the majority of this parkland. Salt Spring has 3,051 acres; Galiano, 1,010 and Saturna, 1,031. Mayne Island has only 84 acres and North Pender, 53. South Pender has 88 acres of park.

Large acreages set aside as map reserves on Salt Spring Island are in part steeply sloping and inaccessible to the general public to whom they are dedicated.

One-eighth of a mile of sand beach with a shore slope of 20% or less of Salt Spring Island's 77 miles of shoreline is publicly owned waterfront, whereas eight miles and a quarter mile of such property are subdivided and in private ownership.

There are 2 7/8 miles of waterfront in public ownership on Salt Spring. The comparison is 4 1/2 miles of waterfront at Galiano with 5/8 mile of sandy beach and good backland in public ownership. Total of publicly owned beaches on Galiano is 2 1/8 miles.

Mayne has 23 1/2 miles of shoreline and no public property. Seventeen miles have no beach at all.

None of Saturna's 27 miles of shoreline is publicly owned. North Pender has 26 1/2 miles and none is publicly owned. Of South Pender's 11 1/2 miles, 1 3/8 miles is public.

Local interest in the future of the islands has been evidenced

## Nursery Is Only Hard Work

BY MINERVA

Are you aware that there is a nursery on Pender Island?

Where? It is situated on Corbett Road, approximately 1 1/2 miles from the Otter Bay ferry.

The house and 1 1/2 acres were purchased by Mr. and Mrs. W.D. Turnbull in August last year.

Then began the backbreaking job of clearing waist-high grass, converting a double garage into a retail store, erecting a shade-house, greenhouse, cold frames, and other buildings pertaining to the nursery. Irrigation was rather a problem. Although there was an adequate well on the property, a farm pond had to be dug.

Bill Turnbull is a graduate of Guelph University, where he spent four years, majoring in horticulture and agriculture, to receive his Bachelor of Scientific agriculture degree.

Mr. Turnbull has been in the florist business approximately 25 years, working in various parts of Canada from Ontario to Victoria. He also served for six years in the army in Belgium and Holland during the Second World War, rising from the ranks to captain.

Meg Turnbull, a strong advocate of organic gardening, is planning a knot garden, in the English tradition, specializing in herbs.

Working side-by-side with Mr. and Mrs. Turnbull are Mr. and Mrs. Kerry Orchin.

In addition to the work at the nursery, they take a truckload of nursery stock, vegetables, bedding plants and fruit and shade

trees to Mayne, Galiano, and Salt Spring once a week.

Operation of a nursery is not just being a gardener. Much of the nurseryman's time is spent growing his own produce, as well as working in the field for his customers, landscaping, rototilling, or testing soil.

The trees have to be pruned, and when his own trees are demanding attention, a customer's trees are usually demanding the same attention. There just doesn't seem to be enough time in the day. Ask Bill Turnbull.

The days are short and the work is long, but the nurseryman is in the business because he likes growing plants and flowers. The Gulf Islands have drawn

the two families away from the city. "What better place to operate a nursery than in the heart of a rural island?" asked Mr. Turnbull.

# SATURNA

BY PAPAJOHN

A few Sundays before Fathers' Day.

In our youth we used to hear the expression, "get a horse", whenever a car was in trouble. What we need on Saturna right now is a lot of horses??? Why? Andreas Johnson has a couple of horses and one of them did a "big big jobbies" in one of our bigger pot holes the other day and every car that came by pounded the manure into the pot hole and it is one of the better filled pot holes!!! When our roads get in this condition we don't blame our MLA for not coming over here with his car.

Dick and distracting Dowteen Gaines had a few lady guests last week which pleased the master of the house. Merry Mazie Newell from Fullerton, California; tricky Trudy Randelman from Fort Collins, Colorado; and damsel Dorothy Hahn from Berkeley, California.

Benny and devilish Donna Begon home from visiting their grandchild in Edmonton. Of course, they saw son Bobby and melting Marg. The baby is fine and Bobby managed to get the old boy up a couple of mornings to drive him to work. Nice going there, Bob.

Lloyd and misty Myrt Stewart come over in their own boat and now they have a motorcycle here for Lloyd to get around on but would much sooner see misty Myrt on it but noted Dave Bruce trying it out while madonna Marne Bruce, with an apprehensive look, watched. Now it would really give that machine a look of elegance if both ladies were riding it.

Jack and delightful Davina Vincent of East Point had just got settled down for the night last Friday when a knock on the door got Jack up. It was spiffy

Sheila Jamieson who had brought over THIRTY other gals with her for the week end but couldn't find the key for the Jamieson abode. The gals got in eventually but, good as he is, Jack didn't know where the key was hid.

The sad news this week is not too bad. Mirthful Myrt Miller is still in Lady Minto and is doing fine. The trouble with mirthful Myrt is that she is an outdoor gal and would like to get out and about her garden. Damsel Doris Barnett will be out of Lady Minto this week and will soon be gracing the coffee shop on the Mayne Queen with her cheerful smile.

Joe Sumislawski and his Fire Department boys had a run the other night. Of all places it was at our garbage dump, where some of our anemic residents who can't throw their garbage anymore than out of their cars had also started a fire.

### A LESSON FROM THE OTTER

The sea otter obtains most of its food by diving to the sea bottom. Folding its front legs near its body it uses its webbed hind feet to reach the shellfish far below the surface. Crabs, oysters, clams and similar creatures are its main diet, although its favourite food is squid. Sometimes it will bring a stone to the surface, lie on its back with the stone on its chest, and beat a stubborn clam against it until the shell is broken. This playful, shy, defenceless creature was the animal which Bering's men used as their chief source of clothing. At that time it existed from California to the Arctic Ocean in thousands, a source of valuable furs untouched by man. Now it is rarely, if ever, seen, and its survivors are numbered in tens. It affords a lesson in why we need conservation measures.

### WHO DID IT ?

Portal sign at the eastern entrance to Mount Robson Provincial Park has been wrecked and Park is at the Alberta-British Columbia border on Highway 16. Some person as yet unknown used a chain saw last month to topple the carved mountain goat from its stand.

An attempt to saw off the goat's head proved unsuccessful. The Mount Robson Provincial Park mountain goat is one of many replicas of animals, birds, and fish that have been carved from red cedar at the Provincial Parks Branch Workshop at Langford, near Victoria, and placed at the entrances to Provincial Parks throughout British Columbia.

**Your litter is just as dirty as anybody else's**  
 Be sure to use a litter container

## Chamber Hears Report

Annual installation dinner for the Galiano Island Chamber of Commerce was held at Galiano Lodge on June 3. Special guest for the evening was A. C. Van Sacker, of B. C. Hydro, in Duncan.

President for the second year, Steve Riddell installed vice-president Dr. H. D. Barner, and gave a short speech. He then introduced Mr. VanSacker, who

talked for a short while, then showed the film, "Columbia".

More than 70 people came to the dinner. Dr. Hart Scarrow, Galiano chairman of the planning sub-committee of Capital Region District, gave highlights of the recent survey of the Gulf Islands.

A further report is hoped for in the near future.

## JAPAN IS MEMORIES

BY ELSIE BROWN

Mrs. Nesta Hall and daughter Julie, have returned after a trip to Expo 70. The chartered Winnipeg flight took care of all the arrangements and the travellers report ideal accommodation.

Mrs. Hall was very impressed with the B.C. Building as well as other exhibits.

The Australian Building featured large revolving wall pictures depicting the "down-under" way of life. They stayed part of the time at the Royal Ozaki Hotel, where the red carpet was kept handy for the many distinguished dignitaries who visited Expo.

Mrs. Hall and Julie also visited a Japanese home, where they were treated with traditional Japanese hospitality. The head of the household was a lawyer and had a good command of English.

Other areas visited included a tour of Formosa, Hong Kong and Macao. Julie took lots of snaps which will be a reminder of a very happy travel experience.

Another Mayne Island couple to visit Expo 70 during the past month were Roy and Edith Crispin, of Mount Parke Estates. They went on a chartered B.C. A.A. flight arriving in Tokyo.

Prior to attending Expo they

were taken on a tour which included stops at Taipei, Hong Kong, Macao and Kowloon.

Back to their air-conditioned hotel in Ozaki, the Crispins were taken on excursions via bullet train to and from Expo site for three days. At Nara, Japan they visited the famous Deer Park where the deer bow before they are fed by the tourists. While there they saw the famous temple, Todaiji which houses the colossal bronze image of Buddha.

The Kasuga Shrine was also visited where a lantern is added every year.

While staying at the International Airport Hotel in Tokyo the Crispins were intrigued by the fact the hotel was sound proof and no noise of planes taking off and arriving could be heard. Windows consisting of four layers of various kinds of material were responsible for the quiet.

The first cargo of lumber was taken from the Queen Charlottes by an American ship in 1852. There were only 40 settlers in the Charlottes by 1901.

**WOMEN'S INSTITUTE MEET AT GARDEN LUNCHEON**

The Pender Island Women's Institute held its final meeting before the summer recess at the home of Mrs. H. G. Scott.

The affair took the form of a garden luncheon. There were 13 members and 4 guests present.

During the business meeting members were reminded of the upcoming meeting in Port Washington Hall on July 8 when Mrs. Gouldstone will talk on "Tying and Dyeing", making of local dyes and spinning. This meeting will be open to the public.

A reminder about the Border Picnic on August 6 was given by the secretary.

Members discussed the needs of the S.C.F. as put forward by Dr. Hitchmanova at the District Board meeting at Strawberry Vale.

The resolutions to be brought forward at the Biennial meeting in Vancouver were read and discussed.

Wool was received from the East Enders Society in Vancouver to be used for quilts.

After the meeting adjourned tea was served to end a very pleasant afternoon.

**ANNOUNCING**

**The BindaBook Service**

We can change your low-cost but valued paperbacks or pocketbooks into handsome, hard-cover, durable, cloth or high quality plastic-bound, gold-stamped books worthy of any library shelf.

- So secure is the binding that the back will never break and the book will withstand the most rigorous treatment.
- BindaBook cover boards are of high quality stock, binding material is of cloth or strong plastic material to withstand shelf wear and handling.
- The book's own printed cover becomes the face of the rebound book and handsome gold stamping graces the spine.
- We can handle books up to 8 1/2 x 11, to a thickness of two inches.

**\$2.50 PER BOOK**

**AT DRIFTWOOD**

**SOUVENIR MEDALLIONS ON SALE IN FALL**

A souvenir of British Columbia's '71 Celebrations, the gold-coloured Centennial Medallion, will be available to the general public this fall. The medallion, in a plastic envelope, is mounted on a descriptive card, with an envelope ready for mailing.

The medallions are now being produced, and will be made available to local Centennial Committees for resale in their area, and as presentation pieces at local events. Order forms and full information will be sent to local committees this fall.

The medallion contains on the obverse, the Provincial Centennial Emblem, and the reverse, a map of Canada as at July 20, 1871.

more about

**SOUTH PENDER**

(From Page Four)

from Victoria to Bonheur, for several days of sketching; cutting waist-high grass, now the pound law is in, and no woollen lawnmowers, around; inspecting bird house tenants; mink-watching. A recent visit from friends, Henry and Christine Deacon, Victoria. The Deacons first jaunt to a Gulf Island, but it won't be their last.

David and Patricia Schofield, back to Silver Creek, Hope, after a month at Bedwell Harbour. Pat's brother, David Smith, of Surrey, helping to build the Schofield complex, on their Southlands bluff property, Eight Oaks.

Russell and Trude Pomahac of Edmonton, at Beauty Rest, casing the Penders, before tackling Washington and Oregon, for property.

In the Madeley panabode, week ending on Kloshe Illahie beach, Charlotte, daughter of Ted and Kathleen Madeley, Vancouver; and Diana Houston, Victoria. The girls are in the same faculty at UBC; both in Rehabilitation Medicine, which gives a compound degree in Occupational and Physiotherapy. Charlotte is interning for 2 months O.T. at VGH and P.T. at CARS. Diana interns for O.T. at Crease Clinic, Riverview, and P.T. at Lions Gate Hospital. Charlotte spent a week at the panabode lately.

John and Barrie Mulski, Bristol Island, Hope, down for 10 days to celebrate Barrie's birthday, May 26, and work on their place above Stanford Beach. Coming to the aid of the party, their daughter, Barbara, Vancouver; with Greek friends, Marino and Kostis, for the week end.

Barrie did NOT beware of Greeks bearing gifts. Mission accomplished. The 24 x 14 ft. studio, with deck, sheathed, built in, siding on. Marino and Kostis, helped John put the shakes on.

"Mission could never have been accomplished without help and scrounging from islanders," says John Mulski. "Campbell and MacKinnon; Murray Rowan's 500 ft. cable; and chief electrician Dudley Hutton's power tools; and consulting engineer, David Smith."

In May, 1889, Japan established her first consulate in British Columbia at Vancouver. First consul was Fukashi Sugimura.

**TELEPHONE**

**TELL A WHAT!**

BY LILLIAN HORSDAL

That describes the B.C. Tel, as applied to Fulford Harbour. It's been an on-again-off-again-gone-again for as long as I can remember using phones in Fulford. Lately, however, it has been only off again, gone again. We were told, to pacify us, that it was because of the substation the B.C. Tel is installing in Fulford and, once installed, all would be as normal as in most places. Maybe! I'm skeptical though since the service has become steadily worse.

You pick up the phone and if there is a dial signal--which most times there isn't--then, naturally, you dial. There might be a regular ringing sound following the completion of the dialing but where is it ringing? Not the number dialled!

When, by prearrangement, you know someone is waiting for that ring and no one answers, wouldn't you be a spot suspicious? A few times my phone gave a most peculiar sound--somewhat like a snake gargling--I'd leap gleefully to answer it only to find about four or seven people were doing the same.

Mark you, this type of inconvenience has been going on for a long, long time in Fulford. We are a patient people!

Usually there is a dull roar which permits you to shout yourself hoarse in order to be heard above it and then, by shutting off all other sounds, you can barely hear a short of gentle whisper from the other end. That sibilant whisper is the result of your party shouting as loudly as you are. I tried four times between morning and night to reach AIR CANADA but no one could hear anything.

Finally, I had to be a nuisance to another telephone subscriber--quite some distance away, but not quite as far as the Sidney Airport.

I'll be charged for those calls and this is a suggestion I have for those of us who live in and around Fulford. Let's ignore our bills! It might work if we all do the same!

Too bad we can't do something drastic about Beaver Point Road.

If the B.C. Tel were a political football like our road, or is it, such a procedure might work? In the meantime we'll go on shaking our cars and ourselves into premature old age. But can you imagine what continual frustration with a phone can do to blood pressure? I don't like to consider it. So if we all refuse to pay the bills sent to us for inadequate service--in fact for no service whatsoever--we just might get some remedial action.

Most of the time we can't even report the appalling conditions. If one phone works, a remarkable feat in itself, it gives rise to a continual invasion by those of us who still have completely dead instruments. The only other alternative is to go to Ganges, to Victoria or just go, not-so-quietly, mad.

At midnight last night, June sixth, we were supposed to be hooked up to this marvellous substation in Fulford which, we were promised, would cure all our telephone ills. I've just tried to use the leering instrument--no difference.

It may not be puffing smoke but it is so tantalizing just sitting there looking pleased with itself. Each time I pick it up there is nothing but the usual roar and it isn't two minutes past midnight on June sixth but nine forty-five June seventh. You see? Empty promises but prompt bills. If we all refuse to pay those bills until our phones work as they do in other parts of the world--even other parts of B.C.--then we may really get adequate service. Isn't it worth a try?

## DOGWOOD IS DYING IF THERE IS, SIGN OF RING AROUND TRUNK

British Columbia's floral emblem, the Pacific Flowering Dogwood, is ailing. It's suffering from stem cankers, a cracking of the bark that allows an infectious fungus disease to eat into the tree.

"The infection", say forest insect and disease survey officers of the Victoria Forest Research Laboratory, "girdles the trunk killing the bark and underlying wood, thus cutting off the food supply which, in turn, causes a deterioration in flower clusters and leaves, and eventually the death of the tree."

The condition usually occurs when surrounding trees and shrub are removed too suddenly, exposing the thin-barked trunk to the elements.

Most losses are observed at lower elevation on Vancouver Island, the Gulf Islands and the Lower Fraser Valley where natural stands have been disturbed as a result of residential development in rural areas. Trees grown in commercial nurseries and forest trees established in open areas are not affected by the disease.

Once the infection has become firmly established in the trunk, little can be done to save the tree. Dogwoods should be examined annually for cankers. Any wound should be cleaned and treated with a pruning type of paint. The most desirable preventative remedy is the gradual removal of surrounding vegetation, usually over a 3-year period, allowing the tree to adapt to exposed conditions.

Although the disease has killed many dogwoods, fortunately, the existence of the species is not threatened with extinction.

# GALIANO

BY MARY BACKLUND

Mr. and Mrs. John Shaw have left on a holiday to England; Mr. Shaw is the Galiano roads foreman, and in their absence, Mrs. T. Steele will be caring for their home on Montague Road. A roads foreman will be over from Vancouver Island for the ensuing weeks.

Miss Jean Lockwood and Mrs. Al Killick took several days off from their busy lives, and went to Banff. They returned last week, all refreshed and rested.

Mr. and Mrs. John Bell, and son Bill, are visiting relatives on the island for several days; they live now in Sooke.

Mr. and Mrs. John Silvey, of Powell River, are visiting brother and family, Mr. and Mrs. Ken Silvey.

Mrs. Dora Arnfinson, of North Vancouver, is spending several days with her sister and family, Mr. and Mrs. G. W. Georgeson.

Mr. and Mrs. Frank Neale,

of Vancouver, are spending holidays at their new cottage at Montague Harbour.

Mr. and Mrs. Frank Jackson, of Vancouver, spent the past week end at their summer home on Gulf Drive.

Mrs. I. G. Denroche came back to her Galiano home for a few days. She goes to and fro to Vancouver, where her husband, Capt. Denroche is a patient at Shaughnessy Hospital.

**GARDENERS TO BE GUESTS OF GARDENERS**

BY YELLOW THUMB

The Garden Club is looking forward to the Garden Party at the home of Mr. and Mrs. P. G. James at Vesuvius Bay next Wednesday morning, June 17, from 10 to 1.

This will be an opportunity to view their lovely garden, and those of us who have been there in other years look forward eagerly to this occasion. Members, and guests who are interested in gardening, are welcome. Refreshments will be served.

STORY OF FIRE ON PAGE ONE

Lion Hart Bradley presents Leo Club charter to President Dave Williams.

more about

**LEO CLUB**

(from Page One)

Charter members of the new club are Dave Williams, president; Mike Alexander, vice-president; Brenda Kaye, secretary; Brian Pharis, treasurer; directors, Rob Woodey, Eric Booth and Dave Marr and Peter Booth, Ray Holmberg, Pearl Kaye, Sean Sykes, Laurie Williams, Maureen Wood, Don Harker, Dave Bartle and Ike Bennett.

Various prominent members of the island community attended the charter night celebrations including many parents of the new members.

**The Johnson 1970 sea-horse is here**

**FIRE AT GALIANO**

BY MARY BACKLUND

There has been a Bambricks Store in the village ever since 1934, when E. H. Bambrick operated a store nearer the ferry dock, and when he died suddenly in May of 1941, his son and daughter-in-law, Eddie and Peggy Bambrick, came from Vancouver to operate the store.

In 1952, Eddie and his wife bought the little coffee shop from the Jacks, and moved to the present location, working hard to make improvements and keep up to the growing community. The couple are held in high esteem, and are part of Galiano. They have worked hard both in their business and in community affairs.

In 1965, Bambricks sold out the grocery business to Les Walton, who came from Victoria to run this business. His wife, Dorothy, worked along with him. She is now on an extended holiday in England.

Last year, the hardware business on the bottom storey was sold out to Miss Thelma Mathias and Mr. and Mrs. Bill Burton, who have lost several months of hard work.

All of the residents of the south end of Galiano were temporarily left with no stores, but not for long.

Mayne Island merchants began immediately to help, and the Spanish Hills Store at North Galiano got in extra supplies. The gas station at North Galiano also got in more supplies, as did Ches. Williams at the Montague Marina.

Now, Hank Knudson and Everett Whyte have purchased the "old Burrill store" from Alan Steward of Mayne Island, and will begin immediately to run a general store just a few hundred yards from Sturdies Bay dock.

Cause of the fire is not known. R.C.M.P. and the Provincial Fire Marshal are still investigating.

Mr. Bambrick has announced plans for restoration of the com-

**THE LIGHT TOUCH**

By H.J. CARLIN

A mother warned her daughter that she might lose her fiance by treating him rudely.

"Oh, Mother," remonstrated the girl, "Jim knows I'm just ribbing him."

"Ah, yes," replied the mother, "but remember that there's a thin line between ribbing and needling. You don't begin needling a man until the marriage is all sewed up."

Mountaineer: "My pa lived to be 98 and never used glasses."  
Friend: "So what? Lots of people drink from the bottle."

According to teenagers, parents are the sum of the squares on both sides of the family.
