

Voters asked to mark "Yes" for Region

Salt Spring Island voters will be invited to express an opinion on November 19 regarding the desirability of transferring zoning and planning functions to the Islands Trust.

The referendum to be presented to islanders will ask whether the voter is in favour of the retention of these functions by the Regional Board instead of transferring them to the Islands Trust.

In the referendum, those who favour administration by the region will vote "yes" and those who

welcome the transfer to the Islands Trust will vote "No".

The vote has no bearing on the transfer of authority. The vote is being presented by the regional board. The decision to transfer these functions was made by the provincial legislature. The board cannot overrule the legislature.

Presenting the question, the board has stated that the transfer will be "most confusing and inconvenient for islands residents and not in their best interests".

Rally draws about 150 to protest tankers

About 150 Salt Spring Islanders attended the rally on Sunday night to protest supertankers in inland waters.

The meeting opened with Ray and Virginia Newman's new song about supertankers. Chairman Beth Hill spoke of the purpose of the meeting and introduced Sam Lightman, who showed the SPEC series of slides depicting the

problems of cleaning up after a spill. ed the character of the Kitimat entrance and its vulnerability to disaster.

The bottom is shallow in part of the area and a supertanker would not be able to negotiate some area. Other parts of the channel are so deep that a vessel cannot anchor, the audience was told.

Adding to these navigational problems are the winds of up to 100 mph which lashed the Kitimat area.

Effects of the oil spill at Santa Barbara were also shown.

The audience were reminded of the incident when a tanker ran aground off Vancouver Island and the enquiry afterwards ascertained that the vessel was equipped with no more navigational equipment than a magnetic compass and that the crew believed they were off the coast of Oregon.

NEGATIVE
The oil port at Cherry Point has met with a sharp negative and it already appears open to question as to whether the Port Angeles plan will go ahead.

Only remaining port in the British Columbia area is Kitimat.

The Kitimat Oil Coalition is vigorous in its opposition to the use of that port for oil tankers.

Highlight of the rally was the call to islanders to attend the November community hearing and to express opposition to oil ports anywhere on the BC coast.

Poster painter winners

Rotary Grey Cup Student Poster Competition was won by Trevor Tamboline.

For the past several years the Salt Spring Island Rotary Club has arranged with the Gulf Islands Secondary School for students to participate in a competition, to make the best poster, advertising the club's annual Grey Cup Breakfast. This year there were about 30 competitors.

The winners were 1, Trevor Tamboline; 2, Bruce Cobanli and 3, Liz Jenks.

The Rotary Club awarded the prizes at its November 1 meeting.

The competitors and Miss Caroline Hamilton, the art teacher, were thanked for their help.

PAGE SEVENTEEN

Island artist to exhibit in Victoria

Island painter is seen with two of his recent works. Art Simons has been painting island scenes for a decade.

Autumn power outages

Power failures on the islands have been very numerous during the past week. Two main reasons for the failures have been wet maple leaves and falling trees.

On Friday and Saturday, BC Hydro crews were called out more than 10 times to restore power to different places on Salt Spring Island. A spokesman for Hydro said Saturday that in many cases large, wet maple leaves are shorting out the lines and cutting off the power supply.

On Tuesday power was off after a number of trees fell in gusty winds. Power was off in Ganges for an hour at around noon and other areas on Salt Spring and all the Outer Gulf Islands were without electricity until somewhat later in the day.

ART SIMONS DEVOTES HIMSELF TO FULL-TIME PAINTING

Karibu's Upper Gallery in Victoria is presenting an exhibition of recent water colours by Salt Spring Island painter, Art Simons. His work will be on display from November 5 to 19, between 10 am and 5 pm. The gallery will also be open on Sunday afternoons, Nov. 5 from 2 pm to 4 pm.

Art Simons is a graduate of the Ontario College of Art and has studied under Canadian painter Carl Schaeffer.

Moving to the west coast 20 years ago, he became a resident of Fulford Harbour in 1966.

In the last two years he has devoted himself to the full-time pursuit of art and his water colouring techniques. He also teaches art and undertakes occasional artistic projects such as book and record illustrations.

The forthcoming exhibition of water colours by Art Simons will be

the second showing of works by the artist at the gallery since last fall. The Upper Gallery is located at 565 Johnson Street, across from Market Square.

Not for sure by Christmas

Christmas is coming too quickly.

Beautiful British Columbia may be late. The provincial magazine has announced that subscriptions may not be processed in time to reach their destinations by Christmas.

The publishers handle the subscriptions as quickly as possible, stated Kenneth Gibbs, of the magazine, but it still takes six weeks to process and deliver.

Tells House of hardship in Islands

Curtis speaks out for Bill 92

The Essential Services Disputes Act is a bold and ambitious attempt to diminish the conflicts and cool the passions that lead to strikes and lockouts, said Labour Minister Allan Williams of his new bill.

Provincial government employees, including ferry corporation staff are required to submit to a longer cooling off period in order to seek a negotiated solution instead of a withdrawal of the service.

Speaking in the provincial legislature last week, during the emergency session, Municipal Affairs Minister Hugh Curtis warmly endorsed the new bill.

Part of his observations are printed below.

I participate in the debate, not

only as a Minister, but also as a representative of a constituency which was very vitally affected by the interruption of service just several days ago.

I listened also this morning, and have had an opportunity to reread the statement made by the Minister of Labour in opening second reading.

The Minister of Labour and this government have reacted calmly, carefully and with great consideration to produce Bill 92. There has been thoughtfulness, restraint, and extreme care.

I suggest that in the atmosphere that has existed in these intervening days, a less responsible minister, a less responsible Premier, or a less responsible

government could well have found the excuse and could have seized the opportunity to introduce punitive legislation which, indeed, would have created the situation which our official opposition, those members opposite, would have us believe exists at this particular time.

NO APOLOGY

As I said earlier, I make no apology to members for having some difficulty in fully understanding all the complexities and convolutions of labour-management relationships - relationships between the employer and the trade union.

I say that frankly.

But as an MLA for a part of southern Vancouver Island, the Saanich Peninsula and the south-

ern Gulf Islands, Galiano, Mayne, the Penders, Salt Spring, Saturna and the smaller islands, I know that there was extreme anger and frustration with respect to the sudden interruption of what they consider to be, and what I must identify, as an essential service.

I know that the majority of our citizens throughout British Columbia experienced anger and disappointment. Some of it was directed towards the trade union and some was directed towards management. But what I do know and what I am able to say without any hesitation, is that the citizens in my constituency cannot and will not tolerate management-trade union disputes which suddenly introduce a cessation of what they know to be

an essential service.

There must be a better way for both parties in order that the citizens never suffer in this way again.

HARDSHIP

I could cite for you very genuine hardship which was caused by the several days' interruption of the British Columbia ferry system, hardship, first of all, of citizens, because they rank, as far as I'm concerned, ahead of the union, ahead of management, ahead of government, ahead of the opposition.

There was hardship for the citizens who suddenly found that a routine and casual shopping trip from one of the Gulf Islands to

[Turn to Page Eighteen]

Essential Services Act

[From Page Seventeen]

greater Victoria turned into a five-day wait, in terms of getting a truck or a vehicle back to a particular island; hardship for the small business people on those islands; hardship for employees in greater Victoria and elsewhere who were told by management that it was necessary that they be laid off for an indefinite period because of the interruption of service; hardship also - let's face it - for many ferry employees, a number of whom were in touch with me to say, "something has to be done. We don't like the situation. Try and get us back to work."

There was hardship for the community. **MUST COME FIRST**

There are those situations in British Columbia and in other provinces where the public interest, in the broadest, most readily understood sense, must come before the rights of an individual who is employed by the public sector or before the rights of someone who is

assigned to management in the public sector.

These people, management and union, in the public area are paid for by public funds. Our citizens deserve better, they expect better and they must receive better.

There are those who will argue that transportation in some areas under certain conditions will be considered non-essential, and indeed some people in Greater Victoria will admit that really the interruption of service for a few days by the British Columbia ferry system vessels didn't create a hardship for them, not in a direct sense at any rate.

But that certainly cannot be said of many coastal residents, Gulf Island residents; Sunshine Coast residents, Mr. Member for Mackenzie (Mr. Lockstead) - and residents of Bowen Island, where there is no alternative form of transportation other than float aircraft and light floating craft which can only operate safely

Rotarian reviews various projects of club as annual breakfast draws near

Adam Morrison, of Harbour's End Marina, in Ganges, spends the working day on the sea shore, working on customers' boats.

When darkness falls and the marina is locked up for the night, he devotes a substantial part of his time to the affairs of the Salt Spring Island Rotary Club. The fruit of his labours is a summary of the work undertaken by his club during the past year.

It was Adam Morrison who coined the term, "from the Heart" in respect of the service club's service to the community.

His list of projects undertaken during daylight hours. **FRUSTRATIONS**

Travel plans were frustrated; wedding anniversaries were interrupted; pay was lost by individuals who, I'm sure, would have preferred to continue working all over British Columbia.

But on the Gulf Islands, those islands served by British Columbia Ferries, virtually total isolation was experienced, again with the exception of private aircraft, charter planes and water taxis, which are only useful during daylight hours. There was total isolation, with dependence on almost any other means simply not open to them.

In these remarks I've tried to identify more from a constituency point of view than a ministerial point of view how I view the events, and these are not the only events, which have led to the introduction of Bill 92.

I sympathize with those people who have been inconvenienced and I sympathize with those employees of the ferry service who found themselves not working when indeed they wanted to work.

BETTER PROVINCE

Again, to paraphrase the Minister of Labour, no legislation put together by a group of individuals is perfect, and I don't think anyone pretends that Bill 92 is perfect.

What it represents, as Oak Bay's Scott Wallace said in his comments, is that this moves us a little further along towards a situation where perhaps we can say, "We came back to Victoria. We participated in heated debate, but we produced legislation which will make this province just a little better place for all concerned in which to live."

I have no hesitation in supporting the bill.

Point in view

Why does the mind of a whale inspire poets and other amiable persons to cry mysticism where there is an honest mystery?

Who is served by these leviathan imaginings and scuba'd insights?- the sentient whale has a more pragmatic view of a harpoon-knows the steel ignores the symbol.

When next you consider your psychic alliance with the mind of the sea, which threatens primeval revelations, honour the whale who dies alone in the sea-not the essence of whale in your splendid mind.

by the island service club is as follows: **GENERAL**

Purchase of a resuscitator-trainer, Resuscitating Recording Annie, a machine for the Lady Minto Hospital to assist doctors, nurses, firemen and police in their training of mouth-to-mouth resuscitation, especially in the case of heart attack.

Distressed family relief. Mowing and trimming several of the churchyards on the island.

Christmas visit to Lady Minto Hospital with Santa Claus and baskets of fruit for the patients.

Construction of backboards for tennis courts at Portlock Park. **YOUTH**

Annual student speeches with the winner earning a trip to Ottawa under the Adventure in Citizenship Program.

Annual student trip to Rotary Youth Leadership Conference in Washington, US.

Annual school scholarship of \$500 for a student continuing his education.

In the past year the island club has sponsored a student exchange for one year to Brazil and one to Japan. The club has, in turn, hosted one exchange student from Japan and is currently hosting one from New Zealand.

Student poster competition was organized for the preparation of the Rotary Grey Cup Breakfast posters.

Funds have been allotted for the School Board to purchase uniforms.

Rotarians have provided financial assistance to children of the British Virgin Islands for Christmas presents and to a youngster in Borneo for education. The island club has also pioneered a new inter-provincial exchange which started this year between Salt Spring Island and Gatineau, in Quebec.

The service club sponsors the Rotary Canadians Football Team. **AND IN TURN....**

The service clubman goes on to offer suggestions as to what the community might do for the Rotary Club.

Each year the service club

stages a number of fund-raising ventures. These include the Valentine's Dance, fishing derby, beef barbecue at the May Day celebrations and the Grey Cup breakfast.

"Of all the fund-raising activities," said the Rotarian, "we rely on the Grey Cup Breakfast to generate the bulk of our funds and we need you to support us!"

Tickets for the Grey Cup Breakfast are \$20 each. Every Rotarian has them for sale. They are also available from the club at Box 513, Ganges.

The Grey Cup Breakfast is a stag breakfast, he noted, although any lady may buy a ticket.

This year the club expects to pay out at least \$1,800 in prize money for the elimination draw.

There will be a new feature at the breakfast. For the first time the game will be seen on a special six foot video screen.

The Grey Cup Breakfast is scheduled for November 27, in Fulford Hall.

Kitchen Korner

BY MARIANNE GOODRICH

This past week was a great opportunity to purchase pork, ham, and chicken at attractive prices, and many of us are already setting aside a little of the grocery budget in preparation for the extra special ingredients for the Christmas season, which isn't really too far away!

Elegant white breast of chicken is a tender delicacy and is one of the best buys on the market. Pound for pound, it's lower in fat and calories and has more high-quality protein than almost any other meat. The secret of tender, juicy chicken breasts is to cook them with the same delicacy you use in cooking eggs. The meat becomes hard, dry and flavorless when overcooked.

CHICKEN BREASTS, MARIA'S WAY

2 whole chicken breasts, split
Salt and seasoned pepper
1/4 cup butter or margarine
1/4 cup minced green onions
1 clove garlic, minced
1 teaspoon paprika
1 bunch broccoli, freshly cooked & hot
4 canned cling-peach halves
1 cup dairy sour cream
1/4 cup mayonnaise
1/4 cup grated Parmesan or Romano cheese
...Season chicken with salt and seasoned pepper
...Melt butter in small skillet, add shallots and garlic and saute a few minutes. Stir in paprika and turn chicken in the mixture until well coated.

...Put in shallow broiler-proof baking dish. Cover loosely with foil and bake in preheated 375 oven about 20 minutes.

...Arrange well-drained broccoli in pan beside chicken. Put peaches in pan.

...Mix sour cream and mayonnaise and spoon over all. Sprinkle with the cheese, put low in broiler and broil 6 to 8 minutes, or until glazed and richly flecked with brown. **MAKES 4 SERVINGS.**

MASKED CHICKEN, MAYONNAISE

3 whole chicken breasts, split
Salt
Parsley
2 whole cloves
1 slice each lemon and onion
2 tablespoons chicken broth or white wine
1 cup mayonnaise
1/4 cup dairy sour cream
1/2 teaspoon each grated lemon and orange rind
1 tablespoon minced chives
1/2 tsp. dried tarragon leaves, crumbled
2 teaspoons lemon juice
6 thin slices baked ham
Toasted sliced almonds
Watercress, olives, hard-cooked eggs (stuffed, if desired) and red-pepper strips.

...Season chicken with salt and wrap in foil with 2 sprigs parsley, cloves, lemon and onion slice, and broth.

...Steam-poach in preheated 350 oven for 50 to 60 minutes, or until done.

...Reserve liquid, cool chicken, then refrigerate.

...Mix 1 tablespoon minced parsley, mayonnaise, sour cream, rinds herbs, lemon juice and about 2 tablespoons reserved liquid (sauce should be thinner than mayonnaise but not runny); chill.

...Remove skin from chicken and lift meat from each breastbone in one piece.

...Trim ham to fit chicken and lay on serving platter. On board, cut chicken in thin diagonal slices, keeping slices together and shape of breast intact.

...With spatula, lift carefully onto ham. Spoon sauce over chicken to mantle each breast completely.

...Sprinkle with almonds and garnish platter with remaining ingredients. **MAKES 6 SERVINGS.**

PORK SPARERIBS

BASTING SAUCE:
...In hot pot, put 2 oz. oil and add 2 cloves garlic, smashed, 1 onion, sliced, 1 green pepper chopped, then add
1/2 cup tomato sauce
1/2 cup brown sugar
1/2 cup malt vinegar
1/4 tsp. cayenne pepper
1 tbs. Worcestershire sauce
1 tsp. tarragon
2 oz. red wine
...Simmer 5 minutes, and add 3

thin slices of lemon rind and juice of 1 lemon.

...Place rack of ribs on a roaster, spear ribs all over to drain fat off.
...Pour 1/2 of the sauce over ribs and cook in 375 oven 1 1/2 hours, basting every 1/2 hour with remaining sauce.

PORK CHOPS WITH ALMONDS AND LEMON JUICE

4 pork chops 1/2 inch thick
1 tablespoon soy sauce
2 tablespoons flour
1/4 teaspoon pepper
1 egg
2 tablespoons milk
1/4 cup butter or margarine
1/4 cup slivered almonds
Juice of 1 lemon
1/4 cup minced parsley
...Brush chops with soy sauce on

both sides

...Coat with mixture of flour and pepper, then dip in egg and milk beaten together.

...Brown slowly in butter in skillet about 10 minutes on each side, then remove to heated platter

...Add almonds to pan drippings and saute, stirring constantly, until golden.

...Stir in lemon juice and parsley. Pour over chops and serve at once. **MAKES 4 SERVINGS.**

BROILED HAM SLICE WITH CURRANT-JELLY GLAZE

1/4 cup currant jelly
1 ham slice (1 pound)
1 can pineapple slices
...Spread 2 tablespoons jelly on one side of ham.
...Broil 8 inches from heat 10

minutes. Turn; spread other side with remaining jelly.

...Arrange pineapple rings on broiler pan. Broil 5 minutes.

...Turn pineapple and brush with additional currant jelly or syrup from pineapple. Broil 5 minutes longer. **MAKES 4 SERVINGS.**

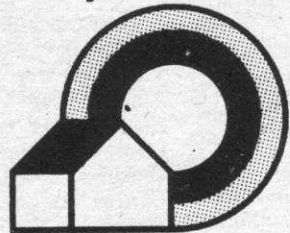

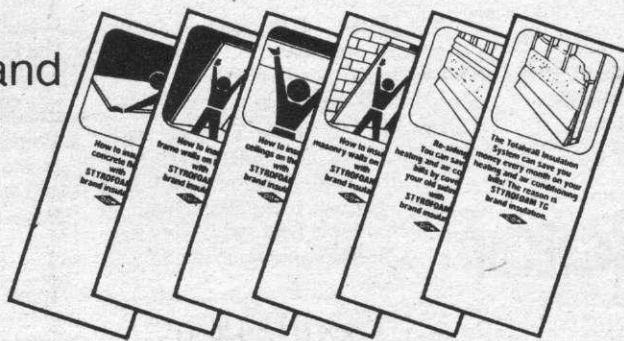

Your home was robbed last night!

Robbed of valuable heat—because old-fashioned insulation is no longer enough to protect you against the soaring costs of fuel and energy. It leaves gaps in your home's defences. And that costs you money every day. And every night!

But now there's an easy way to build permanent dollar savings into your home—with STYROFOAM* SM brand insulation. Strong, light boards of blue STYROFOAM SM put savings in your ceilings, floors, roof, basement and walls. Drop in and ask us for your free copies of the fully-detailed booklets on how to do-it-yourself with STYROFOAM SM...the most efficient heat- and money-saving insulation you can buy.

Protect your home against heat robbery...and save money through all the years ahead.

CRAFT FARE

Get it together for Christmas! Don't just sit around thinking of what to do about Christmas presents, if you're 13 or up **MAKE THEM HAPPEN!**
 Starting Friday, November 4th at 7.00 there will be facilities to do batiking, candlemaking, silkscreening (original cards, T-shirts?) complete with smart folks to show you how.

Also, we'll be going into Victoria for shopping expeditions or to take in some swimming or skating. Might even sneak in a movie or Japanese dinner while we're there.

If you're inspired, or just bored, come share a good time. Who knows where it will lead? Call 653-4503 or just come. 1st house on right (toward Fulford) past Cedar View Trailer Park. 43-2

IN THE MATTER OF THE ESTATE OF WILLIAM JAMES SINCLAIR DECEASED.

NOTICE IS HEREBY GIVEN that creditors and others having claims against the Estate of the above named deceased are hereby required to send them to the Executrix of the Estate, Beatrice Mary Sinclair, c/o Boyle & Company, #2, 284 Main Street, Penticton, on or before the 5th day of December, A.D. 1977 after which date she will distribute the said Estate among the parties entitled thereto, having regard only to the claims of which she then has notice. 42-4

DEPARTMENT OF ENVIRONMENT WATER RESOURCES SERVICE POLLUTION CONTROL BRANCH

APPLICATION FOR A PERMIT UNDER THE POLLUTION CONTROL ACT, 1967 (EFFLUENT)

This application is to be filed with the Director of Pollution Control, Parliament Buildings, Victoria, B.C. Any person who qualifies as an objector under section 13(2) of the Pollution Control Act, 1967 may, within 30 days of the date of application, or within 30 days of the date of publication in The British Columbia Gazette or in a newspaper, or, where service is required, within 30 days of the serving of a copy of the application, file with the Director an objection in writing to the granting of a permit, stating the manner in which he is affected. Those who do not so qualify may file with the Pollution Control Board an objection in writing under section 13 (6), in the same manner and time period as described above.

1. I, Luke Ernest Harrison of R.R. 3 Ganges, Salt Spring Island hereby apply to the Director for a permit to discharge effluent from Laundromat - 8 washing machines located Rainbow Road into drain field and give notice of my application to all persons affected.

2. The land upon which the works are located is Parcel B.D.D. 192114 of the west 1/2 of Sections 1 and 2, Range 2 East North Salt Spring Island - App. 1.15 acres.

3. The discharge shall be located at same as above.

4. The quantity of effluent to be discharged is as follows:

Average annual daily discharge (based on operating period) 3200 gallons.

The operating period during which the effluent will be discharged is 12 hours per day, seven days per week.

5. The characteristics of the effluent discharged shall be equivalent to or better than (insert values after completion of column (3) of table (a) on reverse side) Typical laundromat effluent.

6. The type of treatment to be applied to the effluent before discharge is as follows: septic tank & screening.

7. I, Dennis A. Young, Secretary hereby certify that a copy of this application has been received by the Regional District of Capital Regional District.

Dennis A. Young 8. This application, dated on the 29th day of September 1977, was posted on the ground in accordance with the Pollution Control Regulations.

BOOK REVIEW

BY DOUG WATTERS
Old Wives' Lore for Gardeners, by Maureen and Budgel Boland, Bodley Head.

A very few books are so delightful that one would like to reproduce them in full rather than write a review. So many old wives have tried to get their hands on my copy of Old Wives' Lore for Gardeners, and yielded it up reluctantly after ransacking it and scribbling little notes to themselves that I may be forced to buy a copy for each of my wives.

Where else could you learn that lion manure deters deer from pestering a garden? And, I found out in the course of discussing the book with some old, even ex-wives, that you don't need a lion. Try your local zoo. Some bag and sell it, though it's dear.

Before sprinkling the stuff around, you will no doubt have tested the soil temperature for seeding by taking your pants off and sitting on it as, apparently, do Lincolnshire farmers.

When an impious neighbour points out a stray nettle in the verdure, you can growl, and mutter the following imprecation: "EE, now, dinna rove thee thon, thon be excreting nitrogen, silica, iron, protein, phosphates, formic acid and other mineral salts, thon be."
STEP ON IT!

Uncertain of what to do with which pest? "If it moves slowly enough, step on it; if it doesn't leave it - it'll probably kill something else." Or you might try dismantling an old horsehair mattress, and strewing the stiff hairs around to pierce their tiny bodies.

Mouat's store marks 70th anniversary with expansion

It is 70 years since Mouat's Store took over the Salt Spring Island retail business from Malcolm and Purvis. In those days there were two stores on the island, Mouat's and Bittancourt's.

In 1907 the population of Salt Spring Island was rather less than today. Malcolm and Purvis were an inter-related family in which brothers had married sisters. When tragedy hit one it hit all four members of the family and they left the island to reside in the United States.

Also hit by tragedy, the young Mouat family had been orphaned by the death of their father, a victim of the dreaded silicosis, plague of the stonemason.

Mrs. Jane Mouat was left with her young family and when the store was offered for sale, she looked beyond the family's farm on St. Mary Lake.

Mouat Brothers were Gilbert, who was the merchant of the family; Will, who had plans for other pursuits, but was still brought back to the island business and Gavin, who was better known for his real estate business and other enterprises. It was Gavin Mouat who engineered the development of the Gulf Islands Ferry Company and who negotiated its purchase by BC Ferries.

The early years were a struggle as only a small business can be.

The store was originally in the building later known as the Ganges Inn, which stood where the Ganges Post Office is located today. The present store building built in 1910, expanded over the years, introducing a wider range of mer-

chandise.

Real estate and insurance were introduced and in due course broke away from the parent business. Salt Spring Lands and Salt Spring Insurance Agencies are the direct offspring of the island brothers' operation.

the store passed down to Laurie, Mac and Colin, sons of Gilbert and Belle. The second-generation merchants operated it for many years before withdrawing from the picture and handing over the reins to their cousins generation.

At the head of Mouat Trading Co. Ltd. are Tom and Dick Toynbee, grandsons of the original founder of the family business, Mrs. Jane Mouat.

The features of the store have been changed over the years, but the main building is essentially the same building that housed the business since it was built in 1910.

Mouat's grocery store took over the basement, and an apartment occupied part of the top floor.

After the Second World War, Ben Greenhough took over the grocery store. He also took over the apartment. Then he moved his store into the new building and later sold out to K & R. The apartment became part of the administrative offices upstairs.

Massive staircase in the centre of the store was closed off and the sales area was increased and made more accessible.

LOOKS TO THE WATER

The newest venture, 70 years after the first Mouat opened the doors, consists of a renovation of the area once devoted to retail lumber sales. For the first time in

its history, the store is looking at the waterfront.

Original mall was constructed several years ago when the grocery store moved out. Hank Schubart, island architect, collaborated with the principals in designing the new look, tying in the original area with the new. Geordie Webster built it.

It is possible that 70 years ago the then new proprietors of Mouat's store served coffee to mark the change of management.

On Saturday there will be coffee for the customers as Mouat's Store looks to the approaching last decades of its first century in business on Salt Spring Island.

Egg production was 36.7 million dozen during August in Canada. Figure for the year before was 36.6 million. Average number of layers was down 0.7% to 22.2 million.

Looking down a hall in part of Mouat's new mall.

[From Page Twenty-Four]

you might.

Well, as the authors themselves write of another book, "Only the laws of copyright prevent us copying out large sections of it." So let me just mention that eggboxes, boots, bananas, tea leaves, nylon stockings, beer and rhubarb are all horticultural aids.

Old Wives' Lore for Gardeners is a well-made book. The paper is a cream colour vellum, and the somewhat antique-looking type is called Monotype Ehrhardt. The illustrations, single color engravings, are taken from a number of sources, including Thomas Bewick (b.1753)...and Gerard's Herball first published in 1597". They are very attractive. But all this production excellence makes for a slim book that is pricey at 5.95. Where else, though, could you learn to hang mothballs on your peach tree?

COMMODITIES

Mouat's sold hardware, groceries and most stock expected of a general store. During the years they also sold Model T Fords, gasoline and other commodities.

Gilbert Mouat was the victim of polio at the age of 28 and travelled through his later years in a wheel chair, but that did not knock him out of the island's commercial world.

In the early years of the family's store, most of the family were engaged in it: parents, children, grandchildren and nephews. There were the three brothers and two sisters. The sisters are still living. Mary Wood is in Campbell River and Jessie Toynbee has her home on Churchill Road. Mrs.

The automotive business grew out of hand and the Island Garage is among its descendants.

Agents for Imperial Oil for decades, Mouat Bros. relinquished the agency to Norman Mouat and then to Mac Mouat.

Mac Mouat's son-in-law, Bruce Fiander is now selling Imperial oil and the distribution remains in the same family after better than 60 years.

From Gilbert and Will Mouat,

Canadians brilliant teamwork gives edge over Duncan players

Salt Spring Rotary Canadians, 6;
Duncan Stenmarks, 3

BY GEORGE LEGG

Canadians took over sole possession of top position in Division 3A of Victoria juvenile soccer when they thoroughly outplayed their opposition on Sunday last in Duncan.

Exhibiting soccer of a classical style, Canadians poured an avalanche of goals into the Duncan net with a razzle-dazzle performance which begins to typify their play.

Led by a "hat-trick" from MacLean, the forwards showed a

cohesive strength which is mounting in every game. Webb's unselfish scheming with Cottrell in the early going and later with Toynbee was a joy to watch. It created the openings for the goals.

Cornwall and Quesnel were equally effective on the left wing, often leaving the opposing defence leaden footed. Noticeable was the frequent back-checking by the forwards who provided an essential two way effort.

ALL DIRECTORS

Legg splayed passes in all directions from centre field and scored a "Yaschich" special in the second half Canadians' tower of strength at right centre, Hengstler, capped his performance with two goals, the last of which was pure effort.

In the meantime, Spence, at left centre, worried the opposition like a terrier and threaded passes to the eager forwards constantly. In all, the halves provided that essential ingredient of mid-field dominance which the Duncan team lacked.

Canadians rear wall of Tamboline, Black and Ten Veen continue to show significant improvement in defence.

This is particularly true of Tamboline whose steadiness increases each game.

On the other hand, Ten Veen's understanding of defensive strategy of turning defence into attack is a lead advantage over any team since it increases the number in attack, if nothing else.

On left flank, Black's bundle of muscles are constantly hurtling through space to finish off with a delicate touch pass to a team-mate. **BACK-PASS**

Overall, the defence's understanding with goal-keeper Walker with the back-pass is outstanding and thwarts many opponents in attack.

Increased aggressiveness and the confidence exuded by Walker, in goal, uplifts the entire team to the pinnacles they continuously reach.

The tip over the cross-bar, the dive to the left, to the right and the 18 yard dash all add up to a fine performance.

In all a star-studded performance by all players, next Sunday Canadians can reinforce their hold on top position when they meet Gordon Head at Fulford Field. All players should be at Fulford by 11.45 am for a 12.30 game start.

North Galiano

BY DEVINA BAINES

Geoff and Rene Howard have just returned from a months' holiday in the East, where they visited friends in Ottawa, went on to Nova Scotia then down to New York and Washington, where they had a tour through the White House. From there they drove through Virginia where all the plantations were and on home. They encountered very miserable weather on their trip.

In their absence Herb and Peg Blakely took care of the Lighthouse for them. They are from Windermere, B.C. They liked our climate out here and hope to move out one day.

Their two daughters and son spent the Thanksgiving weekend with them. Lloyd Baines took several stranded passengers back to Vancouver on his "Searcher".

On the evening of October 8 a very happy crowd of Islanders helped Frank and Marg Basarab celebrate their 25th wedding anniversary in the Community Hall. A large number of friends could not attend owing to the ferry strike, but their daughters flew over from Vancouver to be with them. They were presented with many gifts and a money tree for a trip to Hawaii, from some of their friends and the family.

Salishan had guests from Vancouver the weekend following Thanksgiving. Mr. and Mrs. Anderson, Mr. and Mrs. Libera, Mr. Rick Soo and friends, and Mr. and Mrs. Stewart, who were travelling on bicycles.

Old friends, who remembered Mrs. Blanche Rasque, from Spokane, who often visited at the North Galiano Store when Mrs. Wilson owned it, will be sorry to hear that she passed away in early October at the age of 87 years.

Coincidental birthdays

Two Salt Spring Island ladies discovered they have much in common while they were bowling last week at Ganges. Mrs. Jean Stevens and Mrs. Ruth Archer were both in Regina, Saskatchewan some years ago and they were both doing pretty much the same thing.

A discussion on birthstones led to the discovery that they were both born in the prairie town in the same year. And not only the same year but the same day and the same month. They were not born in the same hospital, however. Mrs. Stevens entered this world via her mother's house and Mrs. Archer in her grandmother's house.

The Baines' Family have also been away on holiday. Mr. and Mrs. Bud Baines and Bryce, Mr. and Mrs. Harry Baines and Harry, Jr., took two campers on a trip to Penticton and Okanagan Falls where they spent a short holiday with Mr. and Mrs. Michael Lemky and Jenny, returning by way of Merritt, calling in on Mr. and Mrs. Bob Gabara and Mrs. Clara Bell. The boys had a very successful and enjoyable fishing trip. They returned to Port Coquitlam in time to enjoy Toller Kranston and friends in his Ice Show at the Coliseum.

Tony Uyema spent a few days in Steveston recently.

Mr. John Blomley, of Ganges, took care of the Marina, while Don Silvey was away. Don is now in charge of the Marina since Ken and Ollie Barnes left in September to go back to their home in Duncan.

Mrs. Donna Thompson, with sisters, Lois and Connie Crocker, from Nanaimo, spent the weekend with their parents, Marge and Angus Crocker.

We are glad to see that arrangements have been made to get our Grade Seven children to the South End in time for the Mayne Islander water taxi. It was working quite a hardship on the parents.

Saturday turned out to be a nice day for the school Walkathon. Mr. Manneker and a number of the children walked from the North End. It is hoped that they raised a goodly amount for their projects.

The trees on our Island were beautiful this year with the brilliant yellows and reds. These storms will soon take the leaves away, though. We have been fortunate in not having any serious power outages.

Kicks get new backer, name and win game

BY PETER MOONEN

Salt Spring Cablevision Kicks, 2; Lansdowne Ev. Optimist Rovers, 1.

The Salt Spring Soccer Association is pleased to announce that the Kicks soccer team has a new supporter in the Salt Spring Cablevision and from now on the team will be known as the Salt Spring Cablevision Kicks.

Once again the Kicks came up with a fine performance last Saturday, when they defeated the Rovers, which gave them sole possession of first place in this young season, but, there is still a long way to go.

This time the local boys had to come from behind in an exciting, fast-paced game between two evenly matched teams and since it was a tough game, it needed an all-round team effort to win this game. Both teams played extremely well, but the Kicks with their strong midfield, had a slight edge in play and carried most of the play to the Rovers.

Although the Rovers started out with a strong wind behind them, it was the Kicks who came out flying and created some fine opportunities to open the score, but, like it happens so often, the other team scored the opener.

The Rovers scored when they broke through the Kicks defence, which is a rare occurrence this season; and shot a hard, low shot in the corner of the goal.

This encouraged the Rovers to keep applying pressure and they continued to attack the Kicks with some fine passing plays.

DISALLOWED

After the Rovers had a goal disallowed, the Kicks came back to tie the game when Peter Coates and Sean Logan set up Paul

Cottrell who saw his shot deflected in to the net by a Rovers defender.

Since the Kicks would get the advantage of the wind in the second half, there were some positional changes made at half time by the coach, which resulted in the dominance the Kicks had during that second half and it was just a matter of time before the Kicks would score the winner.

Like he did before, Andrew Hoeller scored his fourth straight gamewinner, when he blasted the ball in the net leaving the goalie no chance, but it was Sean Logan who did most of the work, when he took away the ball from an opponent and dribbled around two Rovers players before giving Andrew a nice pass.

The Rovers tried hard to get the equalizer, but the outstanding play

Salt Spring soccer sees three games played during week end

BY MALCOLM LEGG

Goblins, 3; Wildcats, 2

Finally the Wildcats lost a game but it took a great team effort by the Goblins to achieve it.

Michael Cue and Bradley Davies, with two goals, pushed the Goblins into a commanding 3-0 lead before the Wildcats rallied. Finding a new life the girls roared to the attack and Cindy Delmonico and Trene Kaye found the scoring touch.

But the Goblins defence led by Peter Schroeder with support from Victor Valcourt and Todd Chase held strong and victory was theirs.

Red Devils, 3; Cosmos, 0

For the Devils' win number one and a very happy bunch of players they were. The key to their win was the tremendous play of Simon Jang and Robert Calkins in defence and Michael Brown in goal.

This defence held back Cosmos' forwards, Moger and Fewings and allowed the Devils to settle down. The Devils scoring all came from counter-attacks with Brian Kaye scoring twice and Denny Box, once.

JAMBOREE

Final: Goblins, 1; Hornets, 0 (Overtime)

The weather relented and the

first jamboree took place. Most spectators expected the Wildcats to win but the Hornets eliminated them in the semis on two goals by Tony Legg. The newcomers, the Cosmos, only had four players but they fought doggedly in dropping two decisions by 1-0 scores. The Red Devils fought stubbornly before bowing to the Goblins in overtime 3-2 in the semis.

The final matched a strong Hornets team who were undefeated against the hard-working Goblins. At the end of regulation time the game was in a scoreless tie and

it went to penalty shots for a tiebreaker. Terry Chase scored the all important goal to give the Goblins the championship.

The other bright spot in the Jamboree was the excellent refereeing exhibited by Alan Webb, Carlo Legg, Trevor Tamboline and Colin MacLean. Their officiating ensured a high quality of entertainment and fairness and made the Jamboree a complete success. They are just a few of 15 boys presently attending a referees course in the evenings to qualify as referees. Well done boys!

TWO NEW CANADA SAVINGS BONDS

more about

Salt Spring Kicks

[From Page Twenty-Six]

of the Kicks defence took away all the hope the Rovers had left for a tie.

This game was a true example of how soccer should be played as a team, since all the Kicks players gave their very utmost until the final whistle had blown and this deserves a big compliment for all the players.

Why not come out and watch the Kicks next game against Lansdowne Evening Optimist Chinooks on Saturday, Nov. 5, at 12.30 pm in Fulford?

Bryce to name alternate before election

Regional Board candidate Jim Bryce will stage an informal open-door tea party on Sunday, Nov. 13. Details of time and place will be publicized shortly.

Bryce plans to name his alternate director and his recommendations for members of the Advisory Planning Commission in advance of the election so that "the voters will know, before they cast their vote, exactly who will share an official voice in these government affairs."

Another area of concern, according to Jim Bryce, is the inter-relationship between the islands and the rest of the Capital Region.

He will ask that the people of the island instruct him in decision-making on hospitals, regional parks, waste disposal, administration costs and operations of the district, as well as the Regional Plan.

Also high among his priorities he told Driftwood is a continuing effort to conserve the island's natural endowments and to protect the watershed areas.

A GREAT CHOICE

This year, Canada Savings Bonds offer you a great choice. There's a new Regular Interest Bond that pays interest each year. And a new Compound Interest Bond that re-invests your interest automatically, earning interest on your interest.

SAFETY, INSTANT CASH AND A GOOD RETURN

Both new bonds retain the great features that have helped to make Canada Savings Bonds the favourite investment for millions of Canadians over the past 31 years. They're a safe, secure investment. They're instant cash anytime. And they earn good interest — year after year.

New Canada Savings Bonds are dated November 1, 1977 and yield an average annual interest of 8.06% when held to maturity in 1986. Each new bond begins with 7% interest the first year and earns 8.25% interest for each of the remaining 8 years.

REGULAR INTEREST BOND

If you want a regular annual income from your investment, you'll like the new Regular Interest Bond which pays interest automatically each Nov. 1st. You have the choice of receiving your interest either by cheque or by direct deposit into your chequing or savings account. This new direct deposit feature is an added convenience for you.

You can buy the Regular Interest Bond for cash wherever you bank or invest in denominations of \$300, \$500, \$1,000 and \$5,000.

COMPOUND INTEREST BOND

If you seek savings growth, or an investment for the future, or a retirement fund, you'll choose the new

Compound Interest Bond. After the first year you will earn interest on your interest at the annual rate of 8.06%. Interest on this bond is left to accumulate and is payable only upon redemption or at maturity.

Here's how the value of a \$100 bond grows:

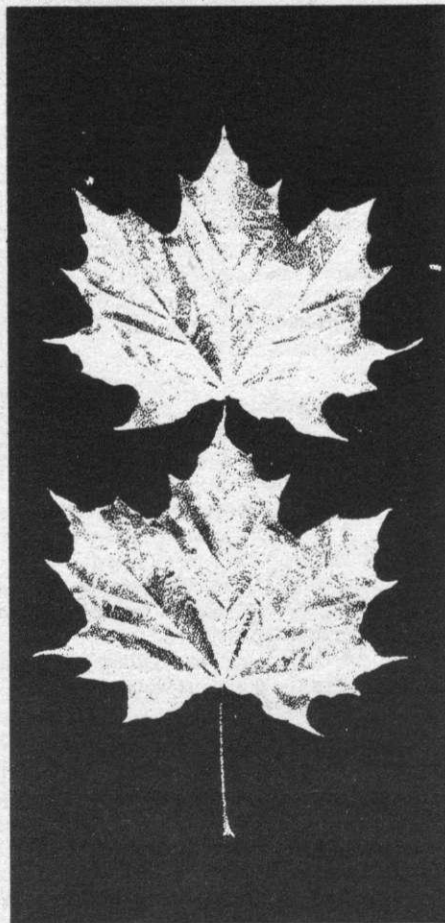

| Nov. 1 Value | Nov. 1 Value |
|---------------|---------------|
| 1978 \$107.00 | 1983 \$158.78 |
| 1979 \$115.81 | 1984 \$171.77 |
| 1980 \$125.34 | 1985 \$185.81 |
| 1981 \$135.63 | 1986 \$200.97 |
| 1982 \$146.76 | |

The Compound Interest Bond may be purchased for cash or on the convenient Monthly Savings Plan wherever you bank or invest. It is available in denominations of \$100, \$300, \$500, \$1,000 and \$5,000.

THE CHOICE IS YOURS

As you can see, new Canada Savings Bonds offer you a great choice — the Regular Interest Bond and the Compound Interest Bond. Both new bonds are on sale now up to a combined total purchase limit of \$15,000. They have been specifically designed to meet your savings goals. Choose the one that's right for you.

8.06%
 Average Annual Interest to Maturity

A GREAT CHOICE

COMPOUND INTEREST OR REGULAR INTEREST

Proposed Ganges Village Plan

SUMMARY

What area is included in the Plan?

The Plan includes the whole of Ganges Village as shown on the map inside.

What is the purpose of the Plan?

Salt Spring Island has an Official Community Plan and also Subdivision and Zoning By-laws. However, the size of Ganges requires that the planning be done in more detail so that the future growth of the village will be guided in such a manner as to preserve and enhance the quality of life of the present and future residents of Ganges.

What is in the Plan?

The Plan contains a plan map and plan policies together with a statement of general goals of the Plan. The plan policies are guidelines for development in all land use categories.

Land Use Designations

The plan policies relate to the land use designations which are:

- * Residential 1, 2 and 3
- * Commercial Core
- * Commercial Extensive
- * Commercial Recreation
- * Industrial
- * Parks & Conservation
- * School
- * Government & Institutional
- * Agriculture
- * Agricultural Land Reserve

Community Development

Ganges Village should continue to be the commercial and cultural centre of Salt Spring Island, and should also continue to be the principal residential centre of the island.

Social Structure

A range of housing forms should be provided to ensure a wide choice of accommodation to all income and age groups. Education, recreation and social opportunities should be encouraged by providing buildings and outdoor spaces that satisfy the needs of all age, interest and income groups.

Economic Structure

Industries related with the fishing and boating and crafted goods manufacture are particularly suitable for Ganges and should be encouraged.

A "farmers' market" should be encouraged with consideration of temporary stalls.

Owners of land in Central Ganges should be encouraged to renovate, rebuild or develop as soon as possible and every effort should be made by all levels of government to assist these developments.

Environment

Encouragement should be given to development that is in harmony with the natural environment, is aesthetically attractive and reflects historical continuity.

An efficient system of waste disposal should be developed to minimize pollution of land and water.

Structures and sites of architectural value and/or historic interest should be conserved or rehabilitated.

Consideration should be given to the implementation and enforcement of a By-law to control property maintenance and occupancy standards.

Minimum setbacks from the shoreline should be established and no buildings placed within this setback.

Excessively steep slopes should be restricted in terms of development; lesser slopes should be developed to be physically and environmentally safe.

Residential

The height limit for all residential buildings should be two storeys, with lower heights where view protection is important.

* Clustering of units should be encouraged

* Bicycle paths and pedestrian walkways should be encouraged as part of residential developments.

* Residential densities may be increased where a sewage system exists.

Commercial

* Commercial Extensive areas should be used for storage and sale of bulky goods.

* The Commercial Core areas should be developed for department stores, specialized retail goods, offices and higher density residential development.

* Commercial uses which require servicing by trucks carrying bulky goods should be discouraged from locating in the commercial core so as to reduce traffic hazards and congestion in the commercial core.

Industrial

* Screens and buffers should be used where the industry may have an adverse impact on surrounding land uses.

* The log sorting and booming grounds should be phased out and encouraged to locate outside of Ganges. Similarly with the oil storage tanks.

Commercial Recreation

* Adequate buffers, including grass strips and tree planting, should be provided between Commercial Recreation areas and adjacent Residential, Commercial and Industrial uses.

* All marinas should be equipped with hookups between boats and onshore facilities for disposing of sewage at such time as Ganges has a sewer system.

Parks and Conservation Areas

* Should include lands along natural water courses, lands along the seafront and land used for outdoor recreation all of which require sound conservation practices.

Schools, Government and Institutional

* It is intended that local, Regional, Provincial and Federal Government buildings should be located adjacent to each other and not scattered at random throughout Ganges.

* There should be provision for community use of government buildings.

Agriculture

* Agricultural uses that may be obnoxious to residential uses should be sufficiently separated or buffered to the degree necessary.

Agricultural Land Reserve

* Land within the A.L.R. shall continue to be regulated under the provisions of the Land Commission Act.

* Further reduction of parcel size of productive agricultural land or land within the A.L.R. should be discouraged.

Water and Sanitary Sewer Services

* Major developments in areas designated 'Residential', 'Commercial', 'Industrial' and 'Schools, Government and Institutional', should be serviced with community water and sewer systems and development should be phased in accordance with the orderly and contiguous extension of community water and sewer systems.

Transportation

* Consideration should be given to providing grade separation at points in the transportation system where the exposure of pedestrians and bicycles to vehicles is considered dangerous.

* The present arterial road through the Village should be relocated to the landward periphery of the commercial core and there should be easy access to core businesses from this relocated road.

* Better parking facilities should be encouraged in the commercial core.

* Pedestrian traffic in the commercial core should be encouraged by the provision of attractive landscaped pedestrian walkways linking the major commercial nodes and the waterfront.

PUBLIC HEARING

A public hearing on this Plan will be arranged for November in Ganges. Check the 'Driftwood' for details.

The text of the Plan will be posted at the library, Mouat's Store, Building Office, Provincial Building and other major centres. Please try to attend.

FURTHER INFORMATION about the Plan can be obtained from George Veinekey, Salt Spring Island Regional Board Director, and from the Capital Regional District at 524 Yates Street, Victoria; 381-4421.

New food for thought

World development and relief

(Contributed)

The subject of aid to the Third World is rapidly becoming as controversial as religion and sex used to be, and not to be discussed at the dinner table if you value your digestive process.

There are among us subscribers to the Lifeboat Theory (there's only enough for a limited number, so throw the sick and weak overboard, ensuring survival of the strong) and there are others who would not admit to being so ruthless, but who simply say, "Leave things alone. Don't rock the boat. Interference is always wrong. If we improve conditions for the poor they'll only take advantage. They outnumber us already, so let's get on with our own business of living."

However, Karl Barth said: "God in no wise takes up a neutral position between the poor man and the rich man. The rich man may take care of his own future. God is on the side of the poor." And it is with a sense of relief that both Christians and Jews return to the Bible to find clear scriptural direction that the poor are our concern.

POVERTY BORN OF BREAKDOWN

Mosaic law made it clear that poverty was due to either a breakdown in the equitable distribution of community resources or to a social status over which the individual had no control (widows and orphans). The care of such people was not an act of voluntary benevolence but the duty of the rich and the right of the poor.

Certainly the ancient Hebrews lived in a different system from ours and a tribal society may have a vested interest in caring for the poor, but other primitives cast out their sick and aging, and it is clear that their attitudes were shaped by their religious beliefs.

Vern McEachern said recently that the same century which spawned the rise of Capitalism also saw the birth of the Protestant Reformation. So it would seem that equitable distribution disappeared at about the same time that people stopped buying their way into heaven with Papal Indulgences. Which goes to show that in all revolutions somebody loses and somebody gains!

God said, through the prophet Isaiah:

"...Is not this the fast that I choose: to loose the bonds of wickedness, to undo the thongs of the yoke, to let the oppressed go free, and to break every yoke? Is it not to share your bread with the hungry, and bring the homeless poor into your house; when you see the naked, to cover him, and not to hide yourself from your own flesh?.... Then you shall call, and the Lord will answer; you shall cry, and he will say, Here I am. If you take away from the midst of you the yoke, the pointing of the finger, and speaking wickedness, if you pour yourself out for the hungry and satisfy the desire of the afflicted, then shall your light rise in the darkness and your gloom be as the noon-day. And the Lord will guide you continually, and satisfy your desire with good things, and make your bones strong; and you shall be like a watered garden, like a spring of water, whose waters fail not."

Peter McCalman said: "How fortunate for us that we believe in an un-just God! If he were concerned solely with justice, we would all be lost. But God shows us that judgement plus mercy equals love."

Bruce Birch concludes an article in The Christian Century:

"The witness of both the Old and the New Testament makes clear that by whatever name [the poor, the needy, the oppressed, the hungry], concern for those persons forced to live a marginal existence in the world is not an optional activity for the people of God nor is it only a minor requirement. Identification with these persons is at the heart of what it means to be the community of faith, and by the litmus test of the Biblical imperatives our churches have failed miserably."

Capital Regional District

PROJECT 'SAM'

to

Recycle derelict cars

Attention residents of
Salt Spring Island

Do you have a "derelict" car or light truck on your property you wish to have removed? The Capital Regional District has a project to collect, crush and dispose of such vehicles through recycling.

The fee for this service is \$10.00 per unit.

THE GANGES COMMUNITY PLAN

An Alternative Report

What has happened?

Since October, 1975, a committee set up to advise the Regional Director upon 'planning the community of Ganges' has pursued its tasks with much fortitude, but little ability to reach agreement. In consequence, early this year the Director was given two Reports representative of the points of view within the committee.

The Director, whose task it was to prepare a Ganges Plan, leaned towards the advice and example given him by the Planning Department of the Capital Regional District and the opinions held by three members of the committee appointed by the Chamber of Commerce. The Alternative Report prepared by three members of the committee appointed by the Community Planning Association, was ignored.

The Ganges Plan...in the form now, being presented to the public... received unofficial approval by the committee, but, as the voting members in attendance represented the C. of C. and the C.P.A. plus the Director, approval was marginal, if not partisan.

It was considered therefore, that the public should be made aware of the contents of the Alternative Report and its significance. It is now up-to-date and available for reading.

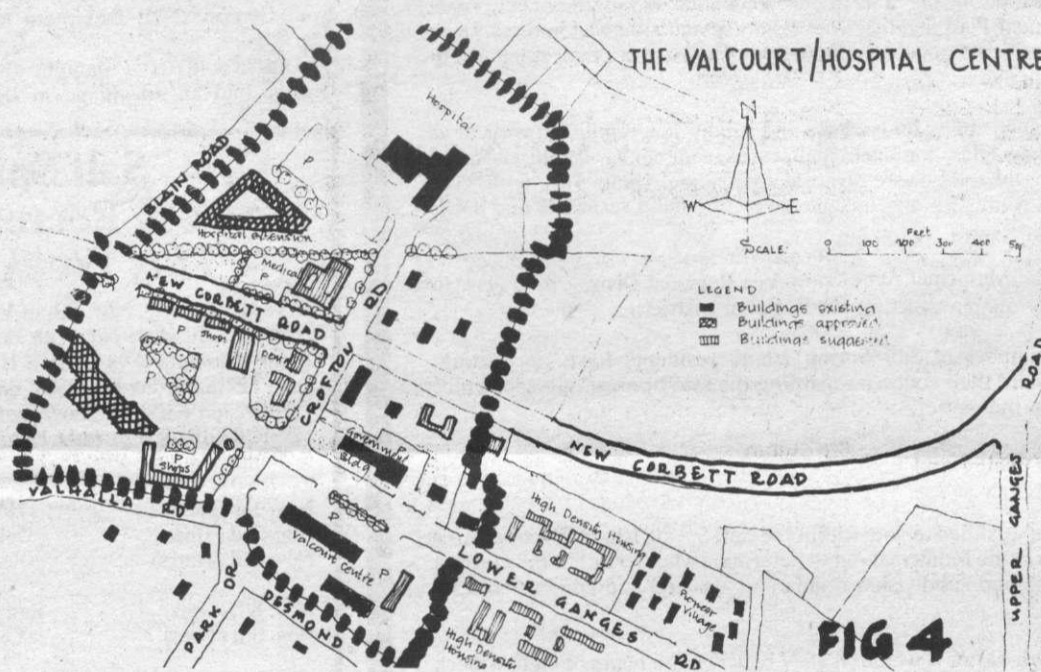

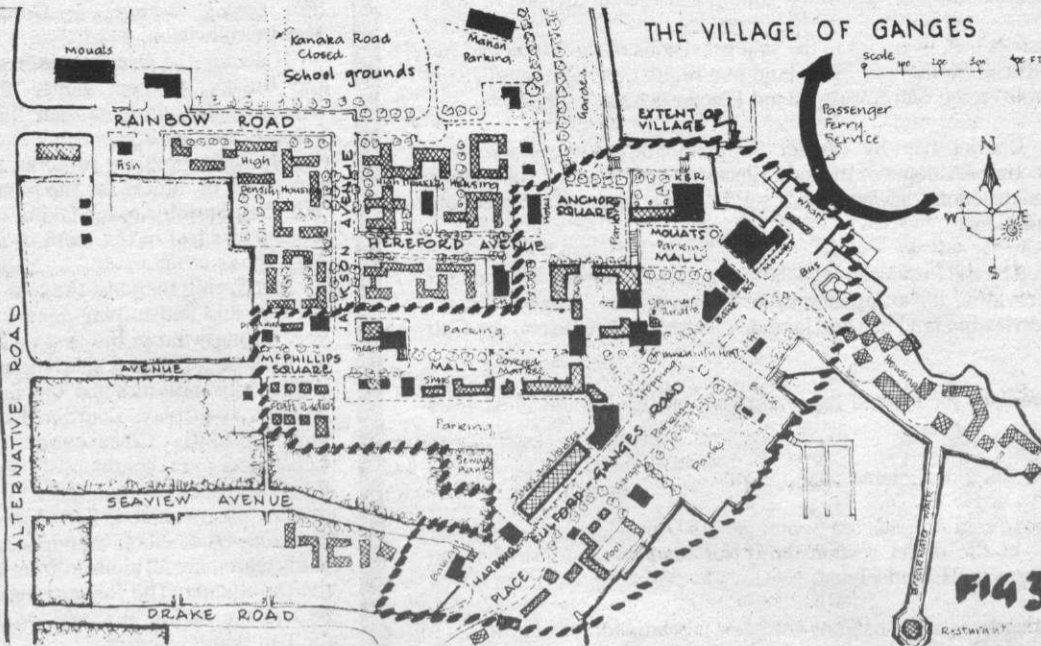

What is a Community Plan ?

A "community plan" is a planning tool fashioned from the metal of the Municipal Act. Its objective is to guide development along lines of agreed policy, by using maps, plans and reports or a combination of all three. A "community plan" is the first step in a legislative process of control by which hopes and aspirations recorded at public level may eventually enter the world of reality.

The Alternative Report

The Alternative Report concerned itself with both 'principles' and 'policies' as they emerged from the study of Ganges and its need to develop. Four of the principles were:

Growth
A plan directed towards development must be related to growth. The 'Ganges Plan' envisages a population growth from 695 (in 1976) to 6,000 (achievable in about 30 years at the present rate) Increases of this magnitude cannot be seen in isolation, but in the context of the whole island. The Community Plan (1974) quoted a figure of 15,000 persons as the

maximum for the island. It must also be noted that Fulford, Vesuvius and Fernwood are likely to expand, and therefore the maximum growth for the Ganges Area should be determined in relation to the whole island.

And yet, growth and even the Ganges Plan are without meaning unless there is to be a sewer. The type of sewerage treatment is also meaningful as far as the Plan is concerned. If, for example, the installation is capable in dealing with the Ganges Area, growth will be rapid in order to embrace the cost involved. If however, the stages of development can relate to stages in treatment, the main producers of sewage can be linked to an initial stage and then, as development proceeds the treatment plant may be extended. Thus the sewer becomes a controlling device in the program of development. Controlled growth can be slowed down...or even stopped... if the effect on development on the environment, or on social customs, is thought to be inappropriate. The

importance we attach to the sewer as a principle of planning is obviously not shared by the Minister of Housing, who although interested in the Ganges Plan has been considering the installation of a sewer and treatment in Ganges for twelve months.

Transportation
...or the movement of people and things...is a key part of the planning process, and a roadway system is perhaps the most important. The present system is inefficient and wasteful of space in the Village of Ganges and badly planned around the Valcourt/Hospital Centre. A new road is sorely needed to carry traffic north and south without going through the Village of Ganges. The mixture of pedestrian traffic and heavy vehicles along Rainbow Road is dangerous for school children. The planning of the Ganges Area centres around a roadway system. The decision of the Department of Highways is awaited before a Ganges Plan can be completed... and it is now nine months since the first meetings were held. Without a

road system in the Ganges Area, there is just NO PLAN.

Service Areas
...there are several 'service areas' in the Ganges Area; the Village of Ganges and the Valcourt/Hospital Centre being the most important. Both are generators of traffic and both should be places for people. The Alternative Report contends that the Village of Ganges is the centre of the island and the place for those activities related to much of the business, culture and marine activity. This diversity of interest makes it a seaside village of unique quality...and yet it is dull. The land available in the village itself is more than adequate for romantic development in which people... particularly the elderly... may enjoy the spirit of the island. A sketch plan forming part of this statement gives an indication of the direction such development may take. The Valcourt/Hospital Centre should be recognized as a traffic generator and made a place for people. Its character is different from that of the village, and because it has few redeeming features, a carefully made landscape treatment could pull it together. A sketch plan is attached which gives an idea of what might take place. In both the Village and the Centre a new roadway system is shown so that parking and people have identities. It is suggested that the Village and the Centre are designed by public participation under the guidance of the CRD and the Islands Trust.

Housing
...is by far the major part of the development. The escalating cost of land and building and services indicates the need for high-density living; Pioneer Village is an excellent example, setting high standards to be emulated. It is suggested that a 'Design Panel' be set up to oversee standards and keep a watchful eye upon matters of preserving the environment and ecology.

FOOTNOTE
Islanders admit to being jealous of their idyllic environment, their slower pace of life, their joy of doing, but they also admit that they are fearful that development and imported values will destroy their way of life. There is also a sadness when it is thought that the island may become suburbia...or even city-like. If this did happen, the islanders would become thwarted, newcomers frustrated and visitors very, very disappointed.

A "community plan"....if prepared carefully and properly, can protect our way of life and add to our cultural ambitions. Opportunity only knocks once...and that time is here.

Henry Elder
James Raeside
Quentin Wilson

There are two policies, as follows:

1. It is suggested that an economic feasibility study be done on the island and its potential of being self-sufficient in as many things as possible. Such a study should take into account the resources available, the man-power and usefulness of products...for home consumption and export...bearing in mind the business and art interests forming part of island life. Until such time as a policy is determined, further expansion of industrial building in the Ganges Area should be prohibited.
2. There is an urgent need for a 'marine policy' on the island and in particular for Ganges Harbour. The Village of Ganges derives much of its colour and character from what goes on in the water. And yet there is much evidence to show that an excess of activity is harmful. There is a need to establish the number, type and distribution of craft using harbour facilities and determine the extent to which development may be permitted...including passenger ferries, houseboats and space required for seaplane travel. Apart from problems of space required for these activities, the problems of holding tanks and waste disposal as well as fire precautions need to be examined.

CAPITAL REGIONAL DISTRICT BY-LAW NO. 420

A BY-LAW TO AUTHORIZE A SUBMISSION TO THE ELECTORS WITHIN THE SALT SPRING ISLAND ELECTORAL AREA ON THE QUESTION OF THE ENACTMENT AND ADMINISTRATION OF LAND USE AND SUBDIVISION REGULATIONS.

WHEREAS by Supplementary Letters Patent dated 30th December 1969 the provisions of Sections 795 to 798D inclusive of the Municipal Act apply to the Capital Regional District, which provisions deal with regional planning, community planning, zoning and the subdivision of land;

AND WHEREAS the Regional District has, pursuant to the said provisions of the Municipal Act enacted by-laws providing for an Official Settlement Plan, land use regulations and subdivision regulations all of which are applicable to the Salt Spring Island Electoral Area;

AND WHEREAS the Regional District has by further supplementary Letters Patent a responsibility for other services affecting residents of the said Electoral Area such as community health, hospital planning and construction, sewage and solid waste disposal, recreation, community parks and building regulations;

AND WHEREAS there was enacted by the Provincial Legislature on 5th September 1974 an Act entitled the "Islands Trust Act" providing for an agency to be known as the "Islands Trust" vested with the responsibility of overseeing land use and land development activities on the Gulf Islands;

AND WHEREAS the said Act provides for elected representation on the Islands Trust from designated Gulf Islands;

AND WHEREAS Salt Spring Island is a designated island;

* AND WHEREAS amendments to the said Act enacted September 1977 provide for the transfer upon proclamation of the said Act of the direct responsibility for land use and subdivision regulations and amendments thereto to the Islands Trust;

AND WHEREAS the said amending legislation has not yet been proclaimed;

AND WHEREAS Salt Spring Island, having a resident population of approximately 5000 persons, has had an Official Settlement Plan together with land use and subdivision regulations for a sufficient period to permit its residents to become thoroughly familiar with their relationship with the Regional District;

AND WHEREAS to change the responsibility for land use and subdivision regulation without at the same time changing the responsibility for such matters as community health, hospital planning and construction, sewage and solid waste disposal, recreation, community parks and building regulations would be most confusing and inconvenient for island residents and not in their best interests;

AND WHEREAS Section 213 of the Municipal Act empowers a Regional District by by-law to obtain the opinion of electors on any matter affecting the Regional District;

AND WHEREAS a significant number of Salt Spring Island residents have, in writing, expressed to the Regional District Board their concern regarding the said transfer of responsibility and requested a referendum vote on the matter;

NOW THEREFORE the Board of the Capital Regional District in open meeting assembled, enacts as follows:

1. Polls shall be taken of the electors qualified to vote within the Salt Spring Island Electoral Area in accordance with the provisions of the Municipal Act to determine whether or not the electors wish to continue to have land use and subdivision regulations enacted and administered by the Capital Regional District.
2. The polls shall be taken on the 19th day of November, 1977 between the hours of eight o'clock in the forenoon and eight o'clock in the afternoon in the following places:
School Board offices, Lower Ganges Road, Ganges, B.C.
Central Community Hall
Nan's Coffee Shop, Fulford Harbour
3. An Advanced Poll shall be conducted at the Capital Regional District offices between the hours of 8.30 o'clock in the forenoon to 4.30 o'clock in the afternoon and the School Board offices, Lower Ganges Road between the hours of 8.30 o'clock in the forenoon to 12 noon and 1.30 o'clock in the afternoon to 4.30 o'clock in the afternoon on the 14, 15th and 16th days of November, and those permitted to vote at the advanced poll are those who, being qualified to vote, sign a statement that (a) they expect to be absent from the area on polling day or (b) they are for reasons of conscience prevented from voting on polling day or (c) through circumstances beyond their control they will not be able to attend the poll on polling day.
4. The question on the ballot shall read:
"Are you in favour of the Capital Regional District continuing to enact and administer land use and subdivision regulations affecting Salt Spring Island instead of transferring the responsibility to the Islands Trust.
YES OR NO?"
5. This By-law may be cited as the "Salt Spring Island Electoral Area Land Use and Subdivision Regulation Enactment and Administration By-law, 1977"

Take notice that the above is a true copy of the by-law authorizing the submission of the question therein set forth for the assent of the electors of the Salt Spring Island Electoral Area and upon which question the vote of electors of the Salt Spring Island Electoral Area will be taken at:

School Board offices, Lower Ganges Road
Central Community Hall
Nan's Coffee Shop, Fulford Harbour

on the 19th day of November 1977, between the hours of eight o'clock in the forenoon and eight o'clock in the afternoon and that the Advanced Poll will be held on Monday, Tuesday and Wednesday, the 14th, 15th and 16th days of November 1977 between the hours of 8.30 o'clock in the forenoon and 4.30 o'clock in the afternoon at:
Capital Regional District offices, 524 Yates Street, Victoria, B.C.

and between the hours of 8.30 o'clock in the forenoon and 12 noon and 1.30 o'clock in the afternoon and 4.30 o'clock in the afternoon at:

School Board offices, Lower Ganges Road.

and that Dennis A. Young has been appointed Returning Officer for the purpose of taking and recording the vote of electors.

DATED at Victoria, British Columbia this 26th day of October, 1977

Dennis A. Young,
Executive Director.

Juvenile soccer

Orange lose out to Gordon Head in fourth game off

Salt Spring Orange, 1; Gordon Head Cablevision, 4.

It seems the Orange never get the breaks in their games this season as they dropped their third game in four outings.

The first problem to come up was a lack of referee for the game. With Salt Spring's coach taking the job, he was lost to the team in his capacity as coach.

Salt Spring then lost the toss of the coin and had to play against a very strong wind in the first half.

Even so, the local side applied tremendous pressure for the first 30 minutes of play. Bourdin, Lake and Reynolds threatened the Cablevision net continuously but the goals failed to materialize.

Late in the half a Salt Spring clearance bounced off an opponent to his teammate all alone in front of the Orange net. The forward made no mistake of his luck and drove the ball home.

Moments later a long drive from Gordon Head had them up 2-0.

One would have thought the Orange had an advantage in the

second half with the wind. Not so, as the wind died and so did Salt Spring's hopes.

Gordon Head went ahead, 3-0 and the play of the Orange became listless and lethargic.

Gradually, they came back and a rough and tumble combination between Farup, Lake and Reynolds was closed out with Wayne's close-in shot for a score.

Moments later, another Reynolds blast was ear-marked for a goal but a brilliant defensive header saved Cablevision and finished the Orange hopes.

The Orange can play better and if the boys had played 90 minutes of soccer the way they played the first thirty they would have won.

But luck is needed also and these boys deserve their share. And when it comes look out opposition because the Orange are going to make the most of it.

Next game listed in This Week in Recreation. -M.L.

**DEADLINE FOR CLASSIFIEDS

CAPITAL REGIONAL DISTRICT PLANNING AREA NO. 3 (SALT SPRING ISLAND ELECTORAL AREA)

ZONING Notice of Public Hearing

NOTICE is hereby given that all persons who deem themselves affected by the following proposed by-law will be afforded an opportunity to be heard on the matters contained therein at a Public Hearing to be held in the Activity Room, Ganges Elementary School, Ganges, B.C., on Tuesday, November 8, 1977 at 8.00 p.m.

1. A by-law to amend By-law No. 118, Official Community Plan (Salt Spring Island) By-law, 1972, being Amendment By-law No. 5, 1977.

By-law No. 118, cited as "Official Community Plan (Electoral Area F - Salt Spring Island) By-law, 1972" is amended as follows:

"By-law No. 118 being the Official Community Plan (Electoral Area F - Salt Spring Island) By-law, 1972, is amended by deleting the community plan made part of that by-law as Schedule 'A' and by replacing it with the community plan made part of this by-law as Schedule 'A'."

Copies of the proposed amending by-law may be reviewed at Moutat's Store, Fulford-Ganges Road, Ganges, B.C., Salt Spring Island Centennial Library, McPhillips Avenue, Ganges, B.C., and at the offices of the Provincial Government Building, Building Inspection Department, Lower Ganges Road, Ganges, B.C., during normal working hours of 1.00 pm to 4.30 pm. The by-law may also be reviewed at the Capital Regional District Planning Department, 524 Yates Street, Victoria, B.C. during normal working hours of 8.30 am to 4.30 pm, Monday to Friday inclusive, (holidays excepted).

D.A. Young,
Secretary 43-2

If you have something for this column: call Elsie Brown at 539-2480

Mainly Mayne

BY ELSIE BROWN

Coming events include the following:

Monday, Nov. 7, Silver Maynes will hold a pot luck supper at 6 pm at the Agricultural Hall. Cost is \$1. Bring an item of food. Slides will be shown by Len Chatwin in the evening. Business meeting will follow supper.

Saturday, Nov. 12 1-4 pm, Annual Bazaar, sponsored by W.A. of St. Mary Magdalene church at the Agricultural Hall. There will be home cooking, gift items, plants, attic treasures and tea, 75c.

The time for the bridge group meeting at the Health Centre has been changed to 1.30 pm instead of 1 pm. It is a social afternoon of bridge for all levels of experience. Lessons will not be available. For more info contact Isabel Geehan.

Congratulations to Phil and Marybelle Jarman who are the proud parents of a bouncing baby boy born Friday, Oct. 21 weighing in at 7 lbs. 8 oz. at Richmond General Hospital. Names chosen for the new arrival are Jeffrey

Michael, a brother for Peter and Angela. Mrs. Jarman, Sr., looked after the children during Marybelle's absence.

GRANDPARENTS

Congratulations also to Herb and Babs Wilson, Miners Bay, who welcomed a new granddaughter, October 16. Proud parents are daughter-and son-in-law Fran and Lorne Rees of Vancouver. Jennifer weighed 8 lbs. 11 oz., a sister for Kimberley. Recent visitors of the Wilsons have been Chuck and Gladys Barron, former Mayne Islanders and now of Aldergrove. Other visitors have been Bob and Betty McKeand, of Nanaimo, who were marooned during the strike. Bob and Herb were old school chums at Welland, Ont.

Welcome back to the island to John and Kathy Mundie, of Bayview Drive, who have returned after a trip to the British Isles. They toured Scotland by car and visited Glasgow, Edinburgh, Inverness and Oban. Kathy was born in Scotland and it was especially

Sergeant Preston winner

The annual masquerade party at Beaver Point Hall Monday night drew great crowds of spooks, goblins and musicians. The atmosphere was far from spooky though and musicians played many varied styles of music.

The costumes were judged at around midnight, for which Bruce Eason mastered the ceremony. John Coombs, disguised as Sergeant Preston of the Mounties, took a prize as did Jezrah Hearne in the guise of a primitive woman.

The hall was lit up more than usual to enable two Victoria filmmakers to use their cameras.

Former Salt Spring Islander Lorne Moore is now working with the National Film Board. He was accompanied by David Pettigrew on Monday night to film the different musicians as they played.

They are hoping to make a film on Salt Spring Island and its people.

enjoyable for her. Their journeys took them to the South of England, visiting relatives in Devon, Torquay and numerous other places of interest. Weather conditions were ideal, with just a few days of rain. They thoroughly enjoyed their trip, but have concluded that there is no place like B.C.

COMMUNITY CHURCH NEWS

The guest speaker at the Community Church service held at the Activity Centre, Sunday, Oct. 23, was Dr. A.J. Elliott of Vancouver who has recently returned from Afghanistan, where he had been invited to instruct doctors in eye specialty work at Noor Hospital in Kabul.

Dr. Elliott was introduced by his sister Mrs. Tom Jakeway, of Gallagher Bay, who gave a brief outline of the speaker's background. He was in charge of ophthalmology at the University of Toronto and more recently at U.B.C.

The slides shown by Dr. Elliott described conditions suffered by the inhabitants chiefly due to lack of sanitary conditions. Eye infections were prevalent, caused by anthrax, meningitis and malnutrition. Trachoma was treated successfully as well as infections due to leprosy.

Many areas of the country are unproductive, agriculturally, due to the barren tablelands and desert. Some areas have been irrigated and a few fertile valleys grow fruit and vegetables, which are sold at bazaars held in the streets.

MAIN CAUSES

Illiteracy and lack of knowledge of hygiene and sanitation are the cause of many health problems. Women wore chadries completely covering their faces and men wore loose fitting garments. They also wore a head covering, turban or fez.

Moslem is the only religion allowed, but Christian services are held in private homes by visitors from other countries. No missionary work is allowed. Dr. Elliott was accompanied by his wife during their stay in Afghanistan. Mrs. Elliott contributed to the commentary.

Rev. John Rodine expressed appreciation for the informative lecture given by the speaker. Stan Chatwin lead the singing. Refreshments were enjoyed following the service.

Look into \$50 theft

RCMP at Ganges are investigating the theft of about \$50 from the Arcade at Everybody's Store. Theft was reported on October 26.

No parental support for team in Victoria game

BY MALCOLM LEGG

Salt Spring Wanderers, 1; Gorge Canadians, 0

The game was not a classic as soccer games go but more of a scramble, rough affair in which the Wanderers never had the win in doubt.

The only goal needed came in the first half against the wind as Brenda Murray intercepted a clearance and lofted a perfect shot over their goalie's head and into the net.

The Wanderers had several other good scoring chances as another score by Brenda was called back for an offside, a Gerry O'Sullivan shot was cleared off the line and Vicky Byron drifted a close-in shot over the bar.

Gorge rarely penetrated the Wanderers' defence as Carter, S. Byron, C. Anderson, T. Byron, Veltman and Simard played sound defensive soccer. Janice, in goal, never was truly tested but played her usually steady game to record her shut-out.

The Wanderers' play was sloppy and erratic at times, especially in the first half. The halves failed to control the mid-field, something they improved in the second half and the forwards failed to penetrate consistently, due to this lack of control and some poor passing.

Continued hard practising and improved play should see the girls come around to last season's form.

One disappointment for the coach and the girls this season has been the lack of support they have received from their parents this season. At this game there was not one parent in evidence. Their support is essential not only to help transport the team off-island but also to give the girls a moral lift.

I think you would find the games enjoyable and you certainly will be surprised by the high standard of soccer they play. Why not give it a try?

Next game listed in This Week in Recreation.

Capital Regional District

Pursuant to Section 766AA of the Municipal Act, the following text of By-law No. 388, cited as "Zoning By-law, Planning Area No. 4 (Outer Gulf Islands), Amendment By-law No. 16, 1977" is hereby published.

A BY-LAW TO AMEND ZONING BY-LAW NO. 103, 1972 (OUTER GULF ISLANDS) PLANNING AREA NO. 4

The Board of the Capital Regional District in open meeting assembled and pursuant to Section 798A of the Municipal Act enacts as follows:

1. By-law No. 103, cited as "Zoning By-law, Planning Area No. 4 (Outer Gulf Islands) 1972", is amended as follows:
 - (a) By inserting under Part 2 - Definitions:
 - (i) after "Dwelling Unit self contained", the following definition: "Fill" means earth, sand, gravel, or any other material similar to the aforementioned materials used, or capable of being used to raise, lower or in any way affect the contours of the ground.
 - (ii) after "street", the following definition: "Watercourse" is any natural or man-made depression with well-defined banks and a bed two feet or more below the surrounding land serving to give direction to a current of water at least six months of the year or having a drainage area of one square mile or more or as required by a designated Water Resources Official of the Province of British Columbia.
 - (b) By inserting in Part 4, - General Provisions, and after Section 4.6, the following section:
 - 4.7 1. Notwithstanding any other provisions of this by-law, no building shall be constructed, nor mobile home located:
 - (a) within twenty-five (25) feet of the natural boundary of a lake or swamp;
 - (b) within fifty(50)feet of the natural boundary of any other natural watercourse;
 - (c) with the underside of the floor system of any area used for habitation, business, or storage of goods damageable by floodwaters, or in the case of a mobile home, the ground level on which it is located lower than two (2) feet above the two hundred (200)-year flood level where it can be determined, or if not, less than five (5) feet above the natural boundary of any nearby watercourse, lake or swamp; in the immediate flood hazard area.
 2. Where fill is used to achieve the required elevation, no portion of the fill slope shall be closer than the distances in Section 4.7(1) (a) and (b) from the natural boundary and the face of the fill slope must be adequately protected against erosion from floodwaters.
 3. Provided that with the approval of the Deputy Minister of the Environment or his designate, these requirements may be reduced.

A copy of the complete by-law may be viewed during normal working hours, 8.30 a.m. to 4.30 p.m., Monday to Friday inclusive, holidays excepted, at the offices of the Capital Regional District, 524 Yates Street, Victoria, B.C.

Capital Regional District

Pursuant to Section 766AA of the Municipal Act, the following text of By-law No. 386, cited as "Zoning By-law, Planning Area No. 3 (Salt Spring Island), Amendment By-law No. 25, 1977", is hereby published.

A BY-LAW TO AMEND ZONING BY-LAW NO. 66, 1970 (SALT SPRING ISLAND), PLANNING AREA NO. 3

The Board of the Capital Regional District in open meeting assembled and pursuant to Section 798A of the Municipal Act, enacts as follows:

1. By-law No. 66, cited as "Zoning By-law, Planning Area No. 3 (Salt Spring Island) 1970", is amended as follows:
 - (a) By inserting under Part 2 - Definitions, and after Sections 2.7 and 2.22 respectively, the following new sections:
 - 2.7A "Fill" means earth, sand, gravel, or any other material similar to the aforementioned materials used, or capable of being used, to raise, lower, or in any way affect the contours of the ground.
 - 2.22A "Watercourse" is any natural or man-made depression with well-defined banks and a bed two feet or more below the surrounding land serving to give direction to a current of water at least six months of the year or having a drainage area of one square mile or more or as required by a designated Water Resources Official of the Province of British Columbia.
 - (b) By inserting under Part 4 - General Regulations, and after Section 4.7, the following section:
 - 4.8 (1) Notwithstanding any other provisions of this by-law, no building shall be constructed, nor mobile home located:
 - (a) within twenty-five (25) feet of the natural boundary of a lake or swamp;
 - (b) within fifty (50) feet of the natural boundary or any other natural watercourse.
 - (c) with the underside of the floor system of any area used for habitation, business, or storage of goods damageable by floodwaters, or in the case of a mobile home, the ground level on which it is located lower than two (2) feet above the two hundred (200)-year flood level where it can be determined, or if not, less than five (5) feet above the natural boundary of any nearby watercourse, lake, or swamp, in the immediate flood hazard area.
 - (2) Where fill is used to achieve the required elevation, no portion of the fill slope shall be closer than the distances in Section 4.9 (1) (a) and (b) from the natural boundary and the face of the fill slope must be adequately protected against erosion from floodwaters.
 - (3) Provided that with the approval of the Deputy Minister of the Environment or his designate, these requirements may be reduced.

A copy of the complete by-law may be viewed during normal working hours, 8.30 a.m. to 4.30 p.m., Monday to Friday inclusive, holidays excepted, at the offices of the Capital Regional District, 524 Yates Street, Victoria, B.C.

Dennis A. Young, Executive Director

Candidate

MRS. MARGARET FLEWIN

Candidate who has been closely associated with the schools for many years is now seeking election to the Gulf Islands School Board on Salt Spring Island. She is Mrs. Margaret D.C. Flewin.

For 11 years she was school secretary at Ganges and she recalls that she always figured that "one day" she would seek a seat on the board.

Resident of Vesuvius Bay, for the past 25 years, she sees herself as very nearly a dyed-in-the-wool islander.

Mrs. Flewin is a veteran of the Royal Canadian Air Force. She graduated in arts from McGill and shortly afterwards she found herself in the administration branch of the air force. On two stations she was assistant adjutant.

Mrs. Flewin is the widow of Walter Flewin, who died in January of last year. He was a veteran of both the First and Second World Wars.

Mrs. Flewin was secretary at Gulf Islands Secondary School for many years. She retired several years ago, and Mrs. Pat Macpherson was appointed in her place.

He learns how to prepare

Fresh hot bread and butter!

BY RON MCQUIGGAN
We've all heard the praise that Grandma's homemade breads and rolls used to get. Most of us believe that home bread baking went out with wood burning stoves, but that's not true.

Several of us spent a couple of enjoyable evenings relearning the basics of bread making from an

expert - Phyllis Coleman. We managed to fill the school cooking room with the marvellous aroma of freshly baked bread. And better yet, we had lots of opportunity to taste our creations while they were still hot! Few things are as enjoyable as spreading fresh butter on hot bread straight from the oven.

For those of us who haven't enjoyed these cooking delights for

too long, this course has given us the methods, the recipes and the desire to repeat the experience at any time in our own homes.

Here's one of those recipes.
QUICK WHOLE WHEAT BREAD
(3 small or 2 large loaves in 2 hours)

YEAST MIXTURE:
Mix 1 tablespoon honey in 1 cup warm water.

Add: 2 tablespoons dry yeast. Let stand 15 minutes.

SPONGE:
Mix 1/2 cup honey with 3 cups hot water.

Beat in enough whole wheat flour to make a stiff batter (about 5 cups) Beat batter well and add yeast mixture. Let stand 15 minutes.

ADD TO BATTER:
- 4 tablespoons oil
- 1 1/2 tablespoons salt

- Stir in about 5 cups more flour; just add enough to make a soft dough.

- oil hands or lightly flour the board

- with 2 cups flour (approximately) knead until dough is no longer sticky. About 10 minutes.

- divide into balls and cover while you oil pans. Form into loaves, lightly brush with oil & place in cold oven.

Turn oven to 250° for 15 minutes. If bread has not risen enough, leave 5-10 min, longer. Bread should be on middle rack. Then turn oven to 350° and bake 40 min. or until done.

FAVOURITE VARIATION: Include 1/2 cup of each of the following: Millet, Flax, Sesame Seeds- each ground in blender. Ground Sunflower seeds or whole are good too.

Salt Spring golf champions

The Painted Cougar

A book for children, written and illustrated in colour by Elisabeth Hopkins, of Galiano Island, niece of the English poet, Gerard Manley Hopkins.

Leon,
a cougar,
sets out from his love,
Lurline,
to become
"handsome and clever."
He travels the world
and meets
a dragon
and a snake
who tattoo him
with images
from his journey.
